

Colloque national CMB-France #5

mardi 5 décembre 2023

Cross-correlations (09:00 - 11:00)

time	[id] title	presenter
09:00	[29] More than the sum of its parts: joint analysis of LSS and CMB experiments	ILIC, Stéphane
09:30	[27] Cosmology from weak lensing, galaxy clustering, CMB lensing and tSZ	BENABED, Karim
09:50	[28] Cosmology from cross-correlations of unWISE galaxies and ACT DR6 CMB lensing	FARREN, Gerrit
10:20	[36] Opening-up a new window with projected-field cross-correlations	BOLLIET, Boris
10:40	[15] Constraining cosmology with Quiaia quasars and CMB lensing	FABBIAN, Giulio
