Session 6: Coulomb excitation (11:05 - 13:10)

-Présidents de session: Paul Garrett

time	[id] title	presenter
11:05	[44] Coulomb Excitation Studies at TRIUMF and FRIB	RHODES, Daniel
11:30	[61] Multistep Coulomb excitation of $^{116,106}\text{Cd}$: emerging quadrupole collectivity	GRAY, Timothy
11:55	[3] Study of shape coexistence and collective properties in $^{94-96}\text{Zr}$ isotopes via Coulomb excitation measurements	MARCHINI, Naomi
12:20	[31] Exploring quadrupole and octupole collectivity in ^{106}Cd via unsafe Coulomb excitation	ZIELINSKA, Magdalena
12:45	[70] Observation of isomer depletion of $^{93\text{m}}\text{Mo}$ in HIRFL	GUO, Song
