Session 17: Various topics 3

Session | Site: | Convener: Zhipan Li

14:40 – 15:00

Nuclear chiral rotation within Relativistic Configuration-interaction Density functional theory**Orateur**

Yakun Wang

15:05 – 15:13

Role of the effective interaction on Bohr Hamiltonian calculations**Orateur**

Clémentine Azam

15:15 – 15:23

Lifetime measurements of excited 0^+ states in ^{120}Sn using thermal neutron capture**Orateur**

Frank (Tongan) Wu

15:25 – 15:33

Shape coexistence and superdeformation in ^{28}Si **Orateur**

Dorian Frycz

15:35 – 15:43

Isomeric state properties in $^{165,169}\text{W}$ **Orateur**

Henna Joukainen

15:45
