
Meeting on the preparation of the SVOM GRB Science

IAP, 6-7 May, 2024

Frédéric Daigne

Meeting on the preparation of the SVOM GRB Science

- **SVOM will be launched on June 24, 2024!**
- **This meeting: a projection to prepare the post-launch phase (starting when the first GRB data will be available)**
- **One document: SVOM Science Management Plan (SSMP)
= general rules, we must invent the practical implementation**
- **High-level Science Leading Group: SVOM Joint Science Working Group
(around the two PIs)**
- **GRB Science level: « SVOM GRB Science Group »** ~~{« GRB Population Studies »}~~
- **This meeting: « French » side only – Discussions with our Chinese colleagues have started on the same topics.**

Meeting on the preparation of the SVOM GRB Science

- **Monday: are we ready for the analysis and interpretation of a SVOM GRB for publication?**

Test case: a bright GRB detected by all instruments of SVOM (space/ground)

- **Tuesday: organisation and strategy of the SVOM GRB Science Group**
 - GRB Science: what are our scientific priorities?
 - Publication plan
 - Practical organisation of the GRB Science Group

Meeting on the preparation of the SVOM GRB Science

- **Hybrid meeting: several microphones will be available in the amphitheater, please use them to allow participants on zoom to hear the questions and comments**

Zoom: there is a different link for Monday and Tuesday

- **Coffee breaks morning (~10h50) / afternoon (~15h30) in IAP hall**
- **Lunch break: to be taken in the neighbourhood**
- **Thanks to Sarah Antier for helping me to organise this meeting**
- **Thanks to all speakers for preparing their talks to introduce the discussion on each topic**
