

# Elbereth conference 2024

## mercredi 28 février 2024

### Session 1 - Amphithéâtre Henri Mineur (10:00 - 11:00)

time	[id] title	presenter
10:00	[37] Detection of exoplanets using low frequencies radio imaging	DUCHÊNE, Quentin
10:15	[38] Theoretical and numerical study of recurrent dynamics in dynamical systems and application to the N-body problem	PRIEUR, Alexandre
10:30	[30] Implicit Likelihood Inference in cosmology while checking for survey systematics	HOELLINGER, Tristan
10:45	[28] Cosmic Shear Nulling: reducing theoretical uncertainties on Dark Energy parameters derived by the Euclid Mission	TOUZEAU, David
