

# OSCAR

Open Science Clusters' Action  
for Research & Society

---

## WP1 – Cluster Open Science Competence Centres

Jordi Boderà (ESRF), Gary Saunders (EATRIS) and WP1 contributors

## MAIN OBJECTIVE

- Fostering the creation and initial operation of thematic RI cluster-based Open Science Competence Centres

## 2<sup>nd</sup> OBJECTIVE

- Ensure the OSCARS Competence Centres are understood and known

## WHAT ARE WE PLANNING TO ACHIEVE THESE OBJECTIVES?

- Look at the specific situation of each Science Cluster and give them freedom to operate
  - D1.1 what competences are there and what the community needs? (M9 – September '24)
  - MS1 the five competence centres are operating (M10 – October '24)
  - MS12 roadmap for competence centres (M12 – December '24)
- Collaborate with WP2 & WP3 to ensure Competence Centres are relevant and create synergies with the other WPs

## WP2

- Each Competence Centre to observe the consolidation efforts and assist in engagement activities

## WP3

- Encourage Science Clusters to publish position papers on competence centres, thus supporting D3.2 (*EOSC Competence Networks*)
- Encourage competence centres to create a database of stakeholders supporting Open Science, FAIR and related services, thus supporting D3.5 (*CC Registry*)
- Meet together with SKILLS4EOSC after the summer

## WP4

- Encourage competence centres to raise awareness of cascading grants and support the submission of proposals
- WP4 will provide space within the OSCARS website for WP1 and competence centres

Currently reviewing similar existing initiatives to competence centres

## SKILLS4EOSC

- Meet together with WP3 after the summer

## OSTRAILS

- Encourage competence centres to observe and coordinate actions

## National competence centres

The WP1 team thanks you for your attention.
