

- **Members:**
  - France: IJCLab, LLR, OMEGA, LPNHE
  - Germany: DESY, KIT (+JGU Mainz)
- **R&D on SiW ECAL**
  - Revision of technological prototype
    - First revised layers for beam test in June
  - Getting prepared for engineering prototype and/or engagement in smaller scale experiments
  - Follow up on contributions to LUXE (and LOHENGRIN)
  - DMLAB is member of DRD-on-Calorimetry
- **The ultimate goal is another common beam test with AHCAL**
  - Exercise during June beam test
- **Calorimetry in five dimensions**
  - Optimisation of particle flow algorithms using timing and machine learning
  - “Cross talk” between Highly Granular Calorimeters WG and Machine Learning WG
  - Dedicated meeting “Granular Calorimetry meets Machine Learning”?
  - Will benefit heavily from recently approved ANR-DFG project CALO5D
