The GRIFFIN Spectrometer at TRIUMF: Its Capabilities and Science Highlights

vendredi 5 juillet 2024 10:15 (25 minutes)

In the presentation, I will focus on what we can do with the GRIFFIN spectrometer, it's potential for investigating nuclear structure, and some highlights of work that we have done with it showing examples of studies near stability with very high beam rates, and far from stability and very weak beams.

Orateur: GARRETT, Paul (University of Guelph)

Classification de Session: Presentation of parallel complementary activities in other facilities, perspectives for the future experiments and campaigns
