Spirit of the school

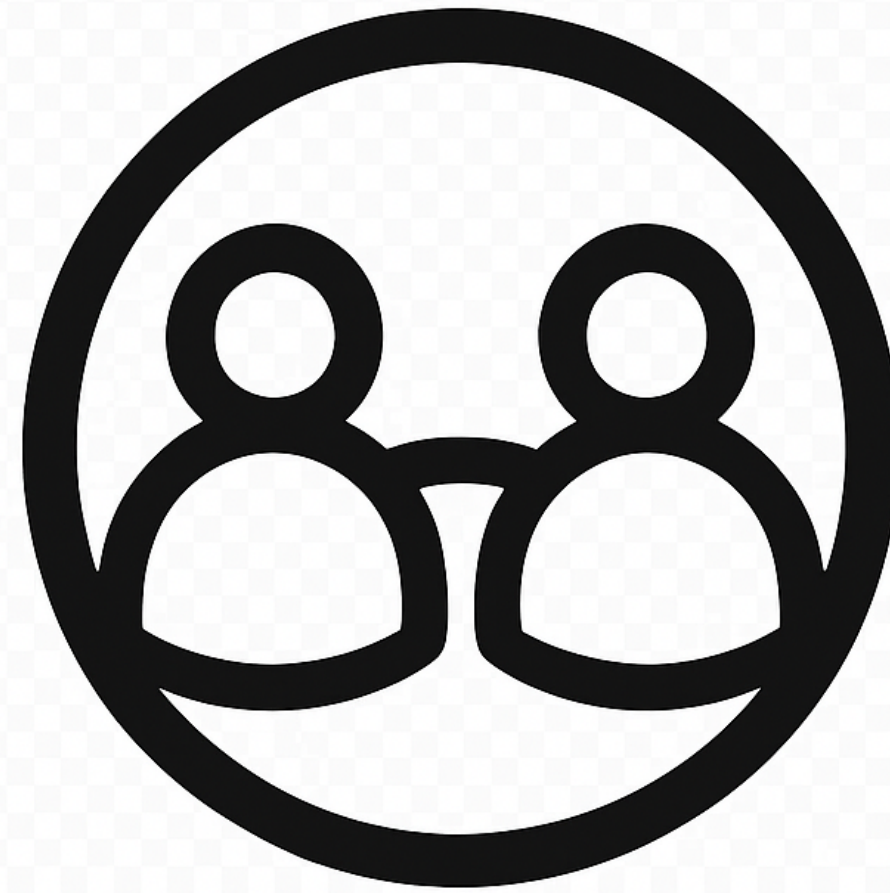

*"The LISA mission will open a new window on the Universe
— this school is about preparing you to look through it"*

- **Right time** (official adoption, Consortium reorganization, etc).
- **Main objectives** are to:
 - Broaden participants' understanding of LISA science through a range of lectures
 - Offer practical experience with current LISA software tools
 - Present the key features of the LISA instrumentation and data analysis methods
 - Encourage networking and collaboration among future leaders in the field
 - Share information about the mission's organization and plans
 - Support the development of general skills and a welcoming collaborative environment

Golden rules

**ASK
QUESTIONS**

**CONNECT
WITH OTHERS**

**NO SILLY
QUESTIONS**

Scientific program

18

speakers

21

lectures
