

Discussion

ANR-DFG:

- 2023+2024 feedback from successful candidates:
 - CALO5D (Roman Poeschl (IJCLab), Vincent Boudry (LLR), Lucia Masetti (Mainz) Frank Simon(KIT), Katja Krueger (DESY))
 - HALOX (Fabrice Hubaut, Pascal Pralavorio (CPPM), Erika Garutti (UHH), Axel Lindner (DESY))
- 2025: pre-submission closed on Oct 15, 2024
- 2026: Lead agency DFG
 - single submission in ~January 2026
 - but at both agencies
- Precarity calculations necessitate a critical mass or go for PhD only?
- Doppelförderungsverbot :(
- Among Helmholtz only KIT can submit as lead: need a University (see Calo5D)
- Ideas for projects:
 - Accelerators?
 - Dark mediators?
 - Detectors?
