

# Huitième Assemblée Générale du GdR Ondes Gravitationnelles

## mardi 15 octobre 2024

### MÉTHODES D'ANALYSE DES DONNÉES - amphithéâtre l'Hexagone (15:30 - 16:30)

time	[id] title	presenter
15:30	[189] A first exploration of the impact of waveform systematics on the LISA analysis massive black hole binaries	MARSAT, Sylvain
15:45	[190] A new stacking pipeline to detect gravitational waves signals from repeaters	EINSLE, Hugo
16:00	[191] Source classification and properties provided in low-latency by the LVK collaboration	AUBIN, Florian
16:15	[192] Searching for the Stochastic Gravitational-Wave Background with Ground-Based Detectors	SURESH, Jishnu
