

Rubin, DESC and LSST-France news

Responsable scientifique : Johan Bregeon (LPSC)

Responsable technique : Fabio Hernandez (CC-IN2P3)

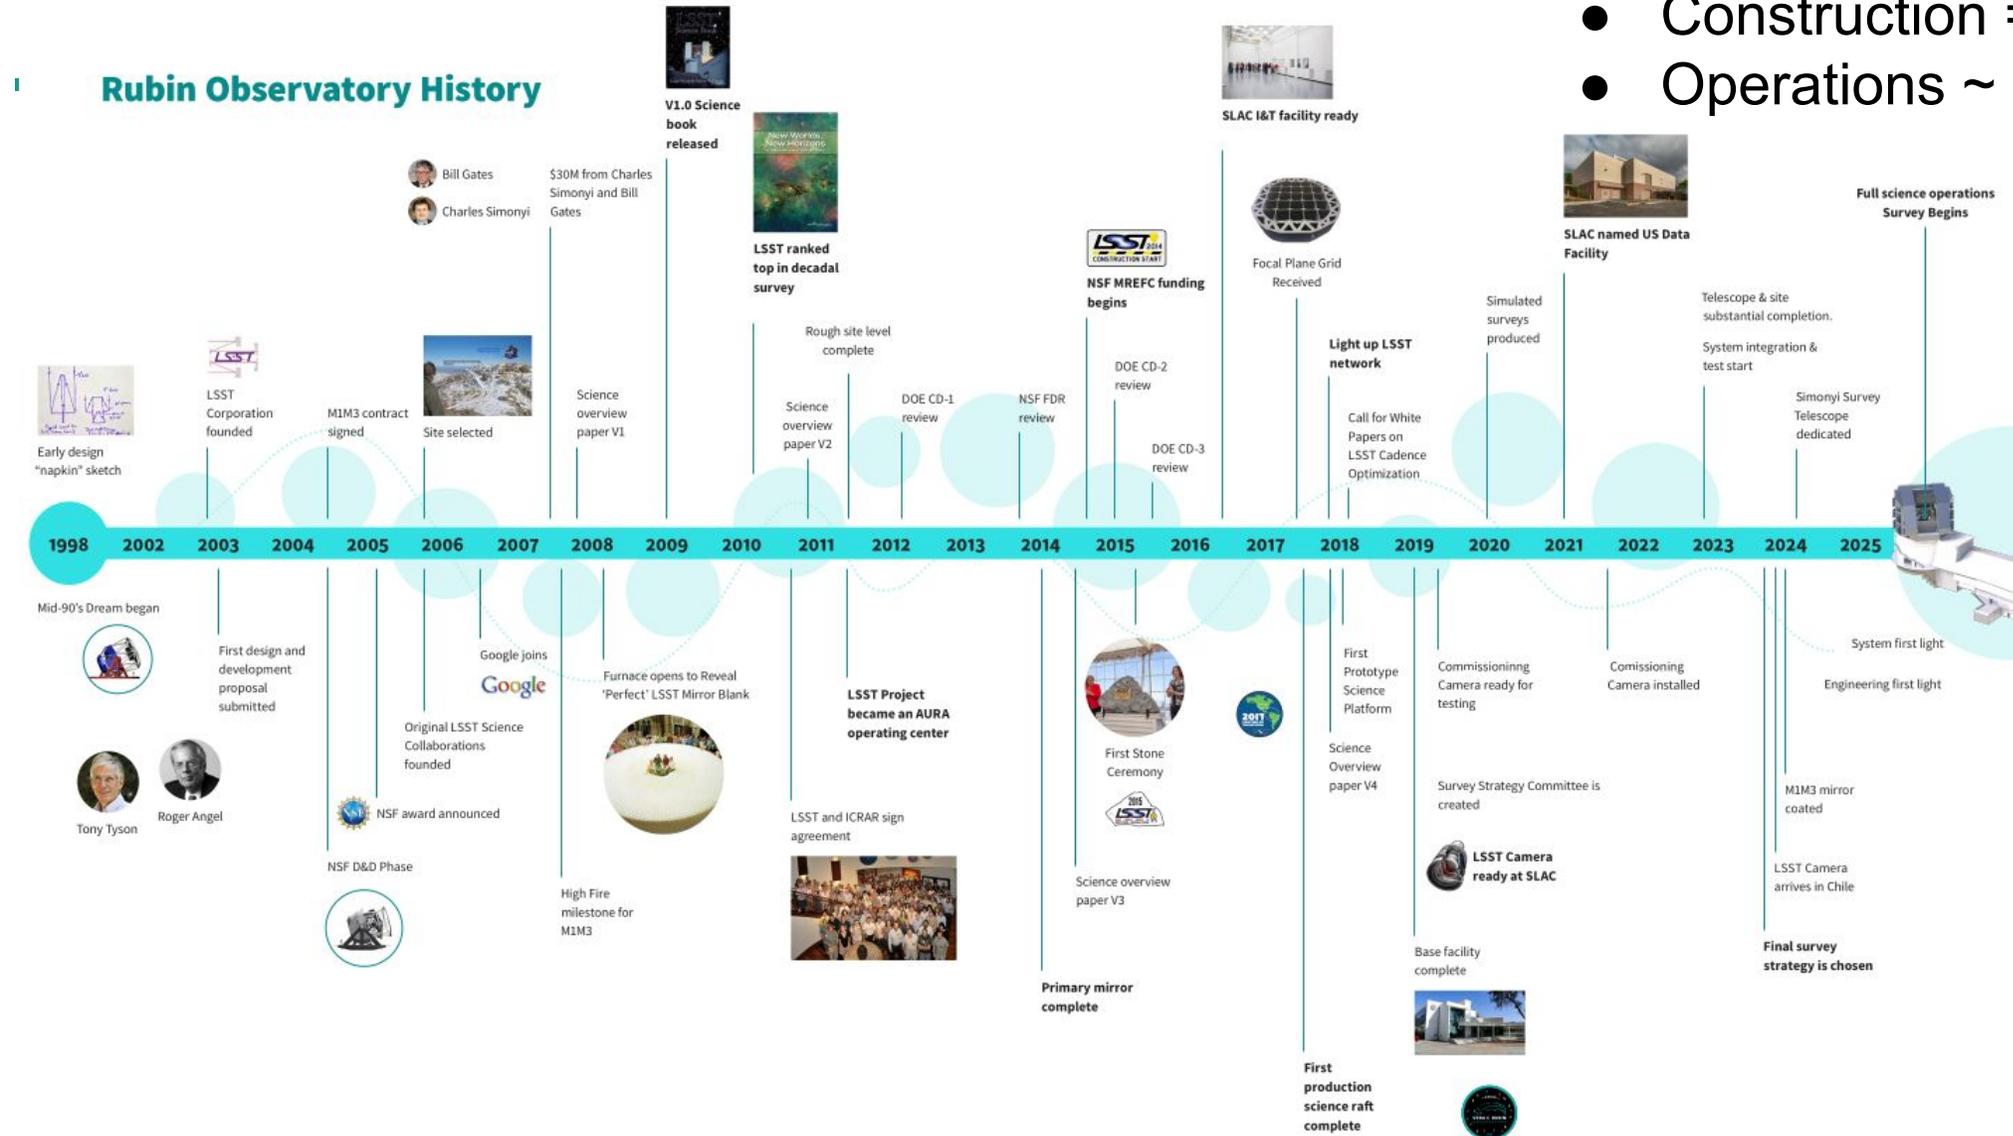

27/11/2024

From LSST to Rubin: a 25 years story

Budget

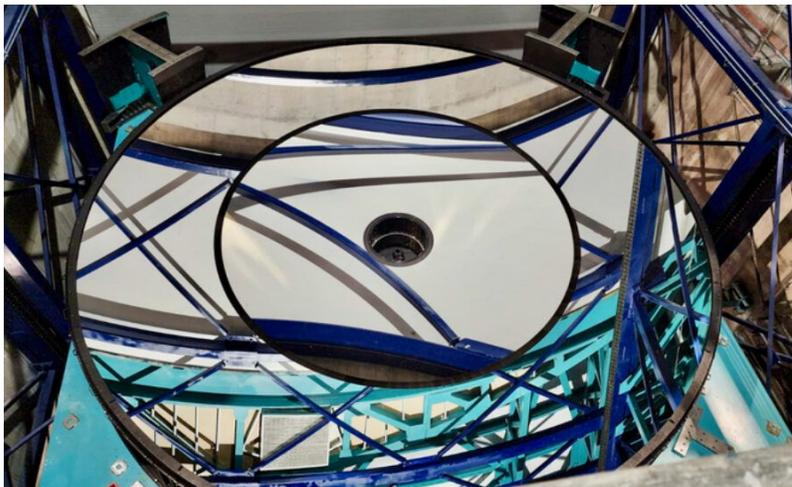

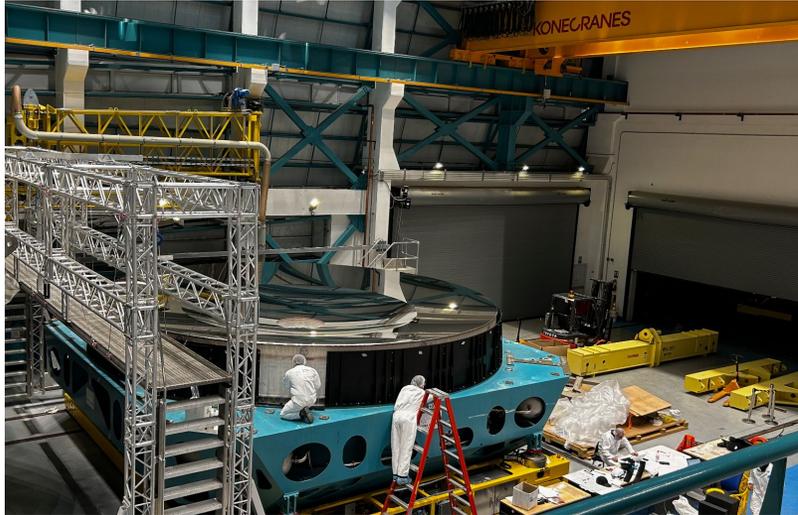

- Construction = 570 M\$
- Operations ~ 70 M\$/an

2024: The observatory construction is done!

Mirror M1M3 on the telescope in october

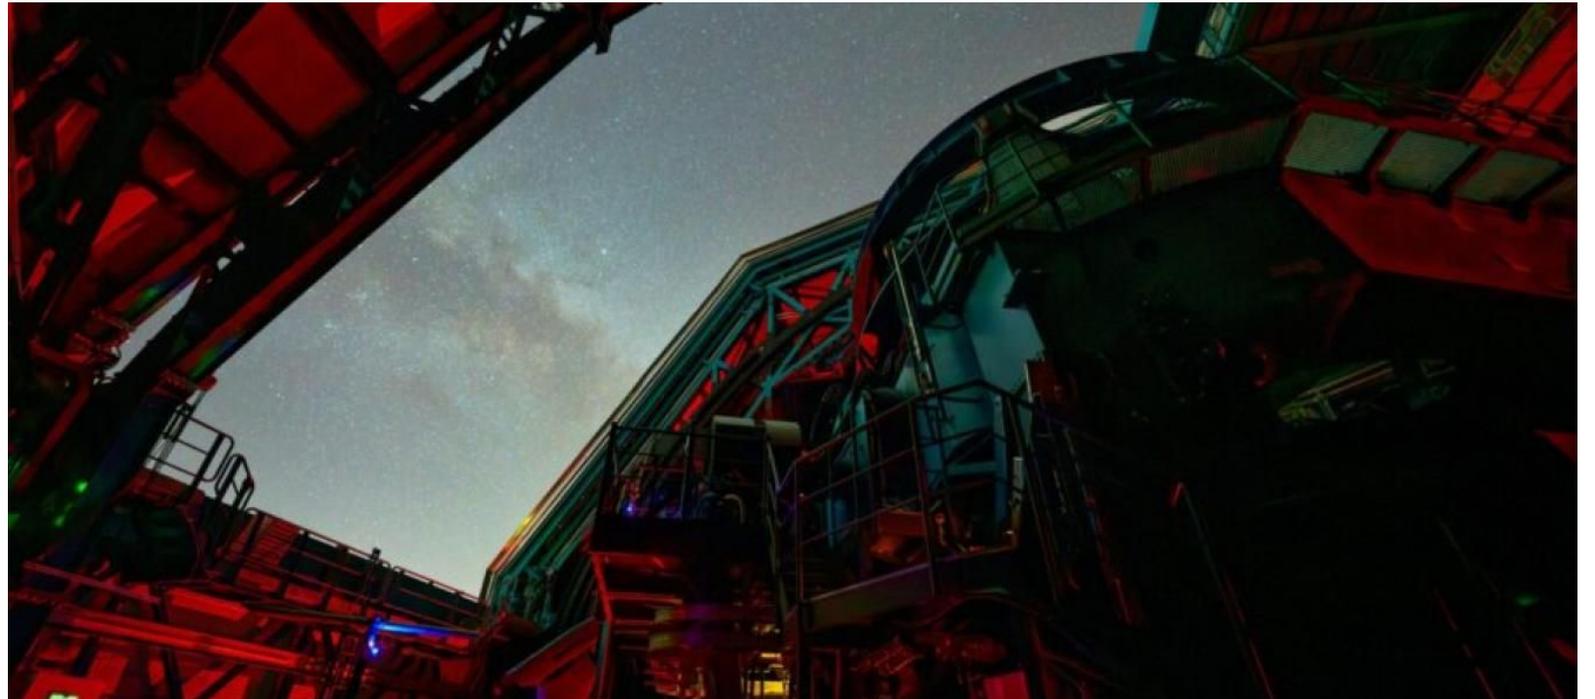

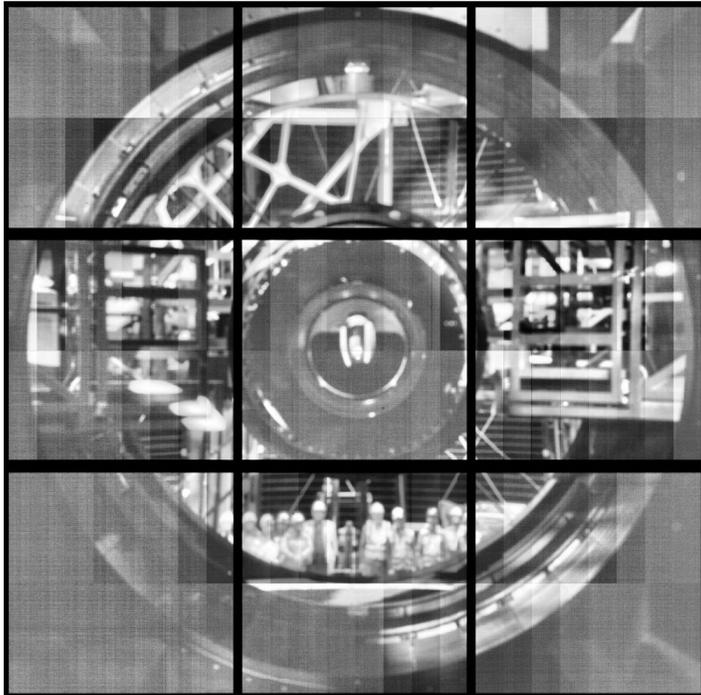

ComCam on Telescope Mount Assembly...

ComCam on-sky since October 24th, 2024

- Adaptive Optics System: very good performances (resolution below 1")
- Data Acquisition and Management is doing pretty well
- Lots of work ahead before beginning operations: *wind shield*, thermal control, ...

TMA SITCOM Performance Analysis

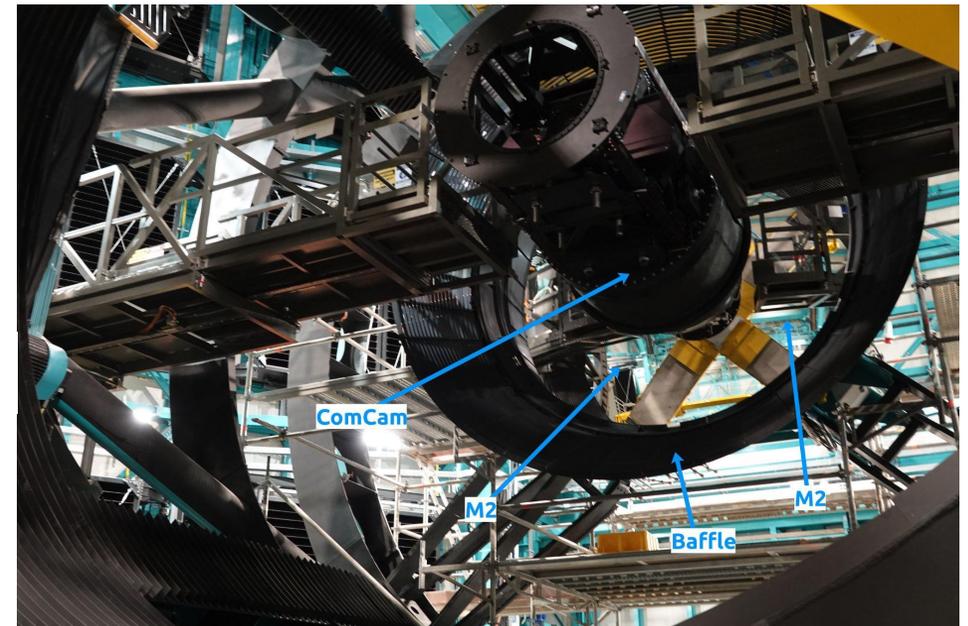

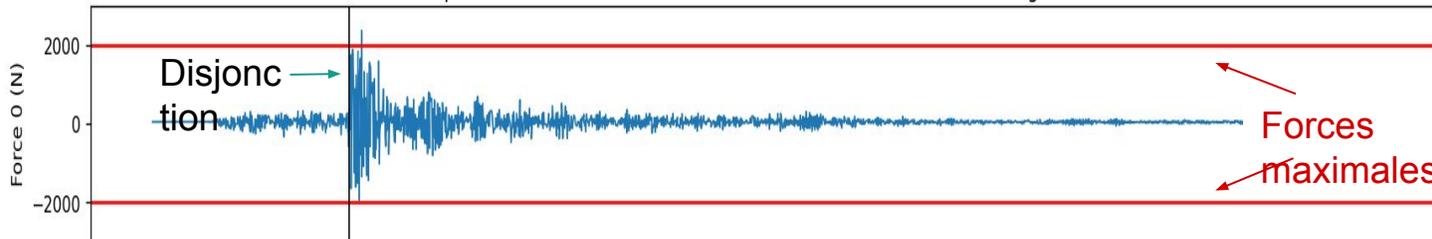

D. Boutigny and A. Jeremie from LAPP

- Mirror M1M3 + cell
- Top End Assembly (TEA)
 - Miroir M2 + cell, Caméra + M2 Hexapods, Rotator
- Telescope Mount Assembly (TMA)
- **Move a 350 t 8.4 m mirror at 10 deg/s, while keeping the optics aligned!**

Measuring earthquakes...

Earthquake 2024-09-23 02:36:50.00 - 02:38:30.00 - MTM2 ForceErrorTangent

Camera Filter Exchange System (including Loader)

- Camera on summit mid-May 2024 : full team on summit over >1 month to restart the camera.
- Camera Cold in August 2024 and starting EO Test in September.

Camera Focal Plane Reverification - Run 7

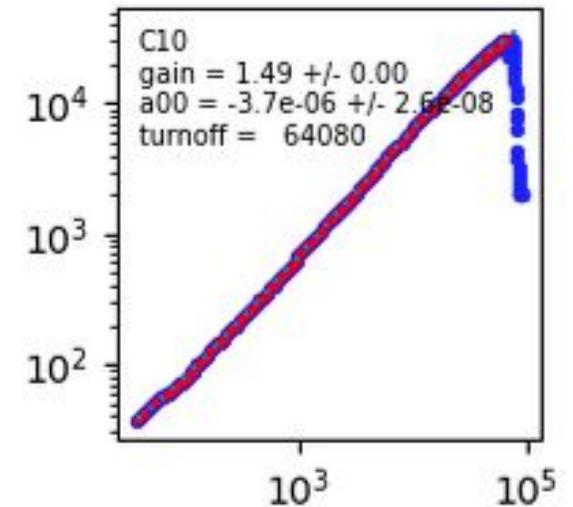

- Integration and electro-optical tests from September to end of November 2024
 - Calibrations, Photon-transfer curves, bias and gains stability, persistence, brighter-fatter
 - Performances as good as at SLAC: optimisation of the global configuration for the readout
- Data at USDF, no replication at CC-IN2P3 yet, but working on it
- Contribution to shifts on summit, to data analysis and to data processing at USDF

Readout noise

Bias stability

Photon transfer curve

Rubin LSST France on Summit

- Construction and commissioning trips to Chile in 2024
 - Ingénieurs.es à SLAC : 8 personnes, 3 semaines en Février
 - Ingénieurs.es au Chili : 9 personnes, 2 semaines en Juin
 - Ingénieur au Chili : 2 semaines en Novembre
 - P. Antilogus : 3 mois Mai-Juillet + 1 mois Novembre au Chili
 - D. Boutigny : 3 mois Août - Octobre au Chili
 - J. Neveu : 1 mois Août au Chili
 - A. Boucaud : départ pour le Chili mi-Novembre
 - T. Souverin : 2 semaines en Août,
 - Y. Faris : 3 semaines en Novembre

~250 k Euros

DESC News

- **Collaboration meeting in Zurich in July (~15 people from LSST France)**
- **Preparing the spokesperson election next year (October 2025)**
 - Difficulties to find candidates, calendar issues, ...
 - New “Spokesperson Sustainability Committee” to find and help potential candidates
 - first set of recommendation issued
- **Setup of the *Early Science Task Force***
- **2 new DESC Builders in France this year**
 - Marina Ricci (Jan. 2024), Michel Aguená (Sept. 2024)
- Remember to ask to become DESC Full Member if you think you are eligible

DESC working groups in 2024

DESC Management led by Spokesperson Team

DESC : Early Science Task Force

- Task force

- 10 people from the collaboration (including R. Salomon postdoc @ LAPP)

- Role

- Recommending whether or not to define a set of **Key DESC early science papers** (or to allow papers and projects to be defined via the usual DESC publication procedure);
- Suggesting ways to avoid having the early science analyses detract from **development of pipelines for the Y1 analyses (DR2)**;
- Proposing any recommended changes the **DESC publication process** for early science papers;
- Proposing methods to **manage potential conflicts**, competing papers, consistency of results and methods on Early Science data.
- **Report to DESC management**, actions and release to the collaboration

DESC responsibilities in 2024

● DESC

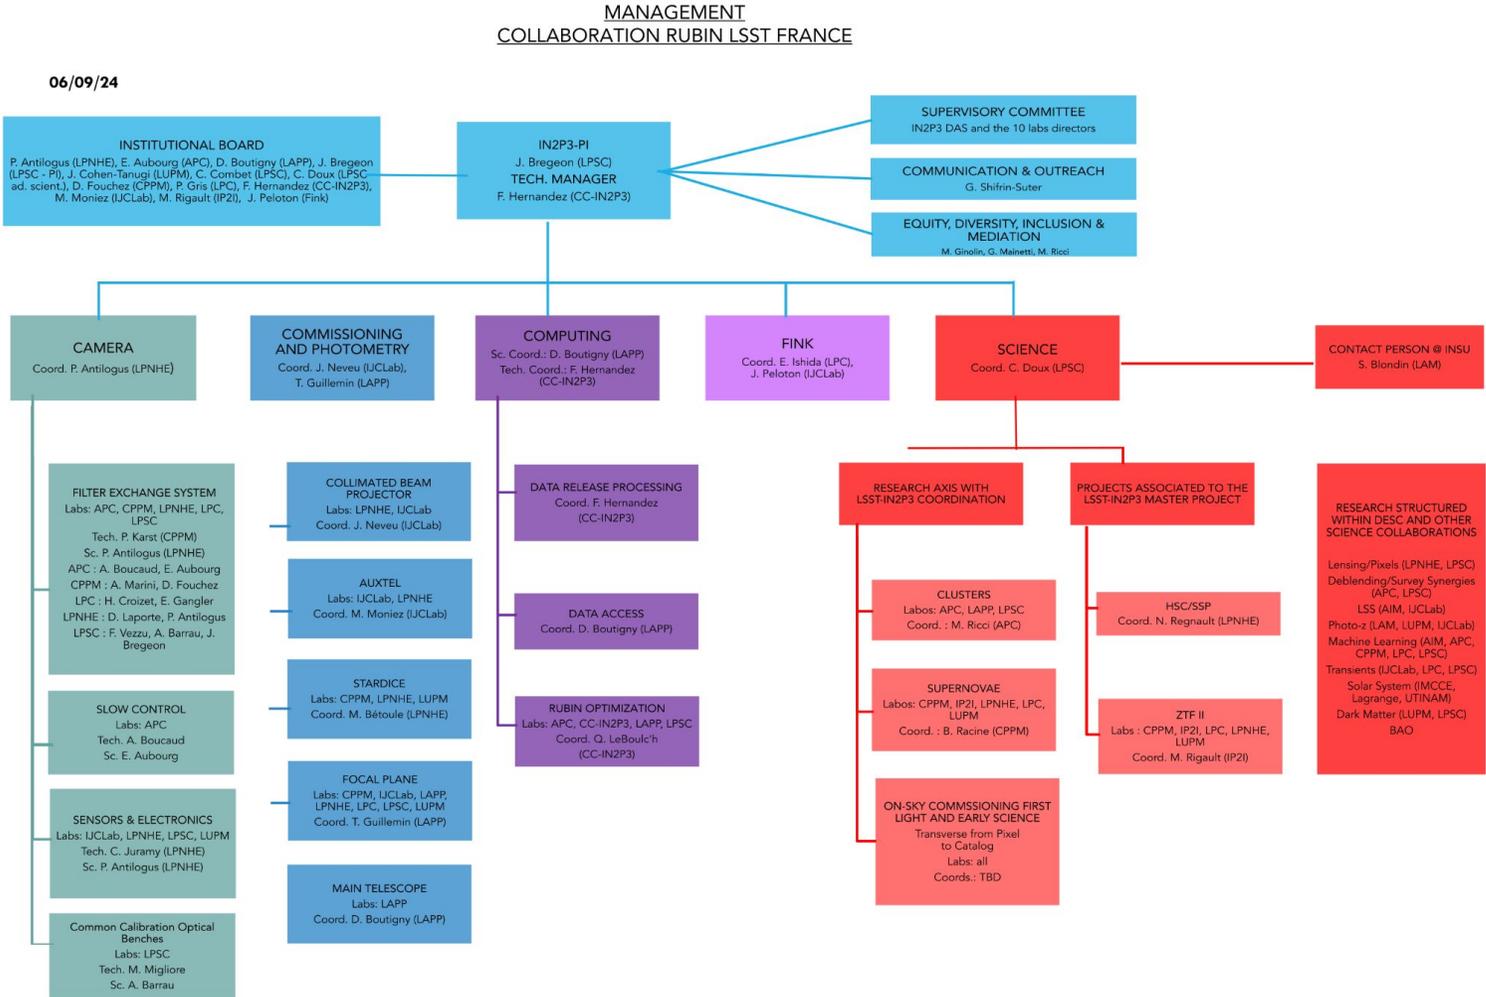

- Strong involvement in working coordination and committees (CC, MC, AC...)
- Marina Ricci chair of the Collaboration Council

● Projet Rubin

- Sylvie Dagoret-Campagne au Survey Cadence Optimization Committee (SCOC) en 2025
- too few positions... working on it

Rubin LSST France organigram

Ajustments to come

- G. Shifrin-Sutter
- end of HSC/SSP, add LS4
- New WL/LSS axis
- Scientific Coordinator C. Doux → B. Racine
- Coordination “On-sky commissioning and early science” (?)
- Point of Contact for the Centre Pierre Binétruy

Rubin/LSST - Euclid synergies

- Discussion Rubin/Euclid à la réunion LSST France de printemps au CPPM
 - présentation premiers résultats Euclid R. Gavazzi
 - discussion ouverte sur les projets de chacun.e et les synergies possibles
- Workshop Rubin/Euclid DDP en décembre 2024 au CC-IN2P3
 - organisation jointe Rubin/Euclid France
 - fortement dirigée par C. Doux
 - focalisé sur les Derived Data Products (DDP)
 - partager l'information, favoriser les collaborations
 - identifier les besoins en organisation et en calcul
 - préparer des demandes spécifiques le cas échéant (GdR, IN2P3, CNES, ANR...)

Centre Pierre Binétruy - Berkeley

- **International Research Laboratory based in Berkeley (R. Pain is the new director)**
 - unique IRL near San Francisco
 - Simona Mei appointed contact person for Rubin-LSST (Novembre 2024)
- **Goals**
 - help researchers, postdocs and students to establish and run strong collaborations
 - in particular for long duration stays for DESC collaborations
- **Ideas**
 - [inform the collaboration \(this slide!\)](#)
 - propose financial support on the LSST France budget
 - ...

Publications and PhDs!

- Publications *peer-reviewed* : 14 (dont 9 avec corresp. author IN2P3)
- Publications dans proceedings : 7 (dont 7 avec premier auteur IN2P3)
- Présentations conférences scientifiques par chercheur IN2P3 : 35
- Soutenances de thèse : 8
