

Programme des sessions

15-17 juin 2026

International Conference on 3D dosimetry (IC3DDose) 2026

Linear Energy Transfer (LET) mapping

Caen

mar. 16 juin

10:50

Linear Energy Transfer (LET) mapping

Session | Site: Caen | Responsables de session: Brian Julsgaard, Remi Lafaye

10:50 - 11:20

Experimental validation of dose and LET distributions for treatment plans in anthropomorphic phantoms

Orateur

Mads Lykke Jensen

11:20 - 11:40

Mapping LET in high-dose regions and mixed particles fields with OSL using track structure theory

Orateur

Jeppe Brage Christensen

11:40 - 12:00

Microdosimeters for Fluence Rate Measurement and Linear Energy Transfer mapping

Orateur

Francesco MAZZA

12:00
