

## Programme des sessions

15-17 juin 2026

## International Conference on 3D dosimetry (IC3DDose) 2026

*Optically-stimulated-luminescence (OSL) based 3D dosimetry*

Caen

## mar. 16 juin

15:40

### Optically-stimulated-luminescence (OSL) based 3D dosimetry

Session | Site: Caen | Responsables de session: Sven Bäck, Brian Julsgaard

15:40 - 16:10

#### OSL-based silicone foils for 3D proton dosimetry: from clinical plan verification to single-shot Bragg curve mapping

Orateur

Michał Sądel

16:10 - 16:30

#### High-resolution 2.5D dosimetry of proton therapy using optically stimulated luminescence films in an anthropomorphic neck phantom

Orateur

Sarah Johanne Gade Clausen

16:30
