

## Programme des sessions

15-17 juin 2026

## International Conference on 3D dosimetry (IC3DDose) 2026

*Novel dosimetry for the clinic today and for the emerging  
irradiation modalities of tomorrow*

Caen

## mer. 17 juin

14:00

### Novel dosimetry for the clinic today and for the emerging irradiation modalities of tomorrow

Session | Site: Caen | Responsables de session: Geoffrey Ibbott, Simon Doran

14:00 – 14:30 **High-resolution 3D dosimetry for carbon ion beam therapy with nanoclay Fricke gels**

**Orateur**

Karolin Milewski

14:30 – 14:50

**Development of double-clad Qdot-based microstrip detector for Spatially Fractionated Radiotherapy dosimetry**

**Orateur**

Patrick Pittet

14:50 – 15:10

**Dosimetric Impact of Magnetic Actuation Systems for Bowel Displacement in Abdominal SBRT**

**Orateur**

Justus Adamson

15:10
