

# IRN Terascale @ Strasbourg 2025

Back in Strasbourg at IPHC !

Thanks to the **WG** convenors for an interesting and lively programme!

And to the **Local Organising Committee:**

*Anne-Catherine, Caroline, Eric, Ulrich & Christophe!*

# IRN Terascale @ Strasbourg 2025

---

## Some points we have discussed:

- Excellent presentations, very good Young Scientist participation
  - ⇒ Also important to **encourage and foster** the participation of (and presentations from) **senior** researchers
  - ⇒ Lively discussions, collaborations between nodes...

## And some news:

- Next (Fall) Terascale meeting: **Montpellier!**

Possibly early November

Thanks in advance to Jean-Loïc Kneur & Gilbert Moulaka

- Goal: **scientific programme up before closing of registration**

Likely to have a small session on **PeV neutrino events**

- Same budget as last year - 18k€ (halfway through it!)

We kindly encourage those who can to **use other sources of funding**

Thanks!

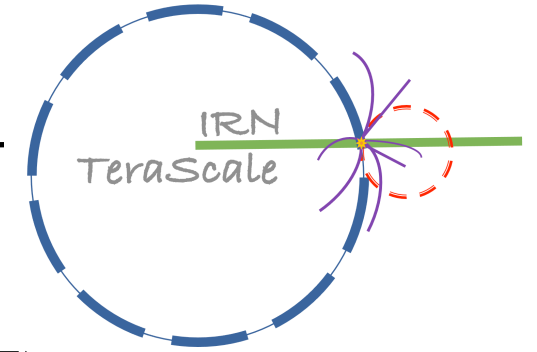

# IRN Terascale @ Strasbourg 2025

*Une soirée (très) flambée 😊*

# IRN Terascale @ Strasbourg 2025

While waiting to see you in Montpellier - keep in touch!

Do not hesitate to reach out (SMC, WG convenors, MHG & AMT)  
if you have ideas, would like to see topics discussed,  
would like pre- or post-meeting collaborative project...

Thank you all for contributing to the Terascale

Safe journey back!

MHG & AMT
