

The skeleton for the discussion used the DAL Running Meeting #21 notes

Highlighted actions and discussion topics:

- re-opened the issue for behaviour in responses to optional parameters
- to clarify/structure the info/warning solution
- take care of the ConeSearch -> DALI -> DataOrigin (PEN) reference chain
- **discuss** meta.id;meta.main column unique behaviour in the basic ConeSearch model
 - clarify/explicit ConeSearch text
 - discuss with catalog/data providers
 - reach an **agreement**

ConeSearch Hack-a-thon (notes)
