

# SPB Meeting 09/07/2025

## SPB Matters

### Follow up on SC discussions

- Travel to France from KIT, GSI and DESY
  - CNRS program with MPG, could be extended to Helmholtz (theoretically)
  - SALTO Program
    - Application separate in Germany and France
    - But: the travel of a German scientist to France is paid for by the employer, not the host
    - No gain visible, your feedback?

### Projects:

- Germanium Detectors: Juergen Gerl and Gilbert Duchene Project withdrew as they felt uncomfortable in a non-nuclear physics setting.
- ET (Patrice and KIT): discussions ongoing, postponed for the moment
- Grand: LPNHE + KIT (presentation by Olivier Martineau)

# Scientific Publications

## Publications

### **DMLab support played a significant role:**

- consider an additional among the different possibilities: [Publication Addresses](#)

### **DMLab support played a role:**

- consider DMLab for mention in the acknowledgement section

### **[inspirehep.net](#):**

- picks up the canonical addresses automatically

### **DMInfraNet:**

- Discussions about a infrastructure networking suggestions to the ESPPU
- [Enhancing European Cooperation in the Search for Dark Matter](#) e-Print: 2504.01688 [hep-ex]
- 50 authors from Austria, France, Germany, Poland, Spain, Sweden, UK

# DMLab Annual Meeting

## Bonn

### Basics:

- Place : *Bethe Center for Theoretical Physics* on the campus of Bonn University
- By Train:
  - Paris to Cologne (Eurostar) 3h30, then take a local train (for French participants: do not use GOELETT for Cologne to Bonn)
  - BCTP is in walking distance from the railway station
- By Plane: Cologne Airport or Duesseldorf Airport (or Francfort)
- Hotel:
  - BW in walking distance to BCTP and train station
  - prereserved rooms until Sept 15: “code DFH” (reservation by mail) 20% discount

### Day 1:

- Start at ~9h
- Visit of ELSA accelerator at 2pm (SC in parallel)
- Dinner TBC [Brauhaus Boennsch](#)

### Day 2:

- End at 1pm

### Travel:

- France: group by lab (Marseille already received)

# ***DMLab Annual Meeting***

## **Program**

### **Indico:**

- sessions in place (for symmetry reasons only 3)
- chairpersons: formal needed for the DFH-UFA request
- Your ideas? (As usual slight preference to younger researchers)
  - MADMAX
  - Ask the trip takers?
  - Local contributions?
    - Lohengrin?
    - Theory: Herbi on Quantum Entanglement at high energies?
  - Your suggestions? (not restricted to projects)?

# ***SPB Meeting 09/07/2025***

## **Budget**

### **DFH-UFA:**

- application submitted
- targets (DFH-UFA rules) young researchers
- answer expected between now and Oct 15

### **Procope**

- New constraints make it difficult

### **ANR-DFG 2026**

- Lead agency: DFG
- Publication July
- single step submission in January (tbc)

## **Budget 2025**

- CNRS: 15K translates into about 8-10 weeks, 5K is reserved for the annual meeting
- If DFH-UFA comes through, a bit more available
- Finalize your dates please, it helps with the budget handling....
