

Programme des sessions

13–15 oct. 2025

Colloque national CMB-France #7

Ground-based observatories

Institut Astrophysique de Paris
98 bis boulevard Arago 75014 Paris

lun. 13 octobre

14:00

Ground-based observatories

Session | Site: Institut Astrophysique de Paris, 98 bis boulevard Arago 75014 Paris

14:00 – 14:20 **The Atacama Cosmology Telescope sixth data release: ACT DR6**

Orateur

Adrien LA POSTA

14:20 – 14:40 **ACT-DR6 Power Spectrum Foreground Model and Validation on non Gaussian simulations**

Orateur

Dr Benjamin Beringue

14:40 – 15:00

**SPT-3G D1: CMB Temperature and Polarization Power Spectra and Cosmology from 2019–2020
Observations of the SPT-3G Main Field (1)**

Orateur

Etienne Camphuis

15:00 – 15:20

**SPT-3G D1: CMB Temperature and Polarization Power Spectra and Cosmology from 2019–2020
Observations of the SPT-3G Main Field (2)**

Orateur

Ali Rida Khalife

15:20 – 15:40

**SPT-3G D1: CMB Temperature and Polarization Power Spectra and Cosmology from 2019–2020
Observations of the SPT-3G Main Field (3)**

Orateur

Lennart Balkenhol

15:40 – 16:00

QUBIC: taking advantage of Bolometric Interferometry with Spectral Imaging and news from the instrument

Orateur

Alexandre Huchet

16:00
