

OSCAR

Open Science Clusters' Action
for Research & Society

WP4 - overview and next steps

Funded by
the European Union

- 2 Open Calls implemented
- 70 projects funded
- Cross-cluster & cross-domain participation
- Strong application growth between calls
- Engagement via surveys, AGM discussions, mentoring interactions
- Projects' assets contributing to EOSC (meta-data, software, workflows, metadata pipelines, services, AI tools, etc.)

1st OSCARS Open Call

Proposals

264 Proposals received

610 Organisations

42 Countries

Funded projects

58 Funded projects

173 Organisations

28 Countries

10 Organisation types

Scientific domains

38 from domains of the 5 SCs

17 cross-cluster

3 beyond the domains of the 5 SCs

- University: 17
- RI: 10
- RTO: 15
- Non profit: 3
- SME: 3
- International org.: 3
- Pan-European org.: 1
- Project, network, initiative: 1
- Large enterprise: 1
- Other: 3

2nd OSCARS Open Call

Proposals

764 Proposals received

1884 Organisations

67 Countries

Funded projects

12 Funded projects

31 Organisations

11 Countries

5 Organisation types

Scientific domains

10 from domains of the 5 SCs

1 cross-cluster

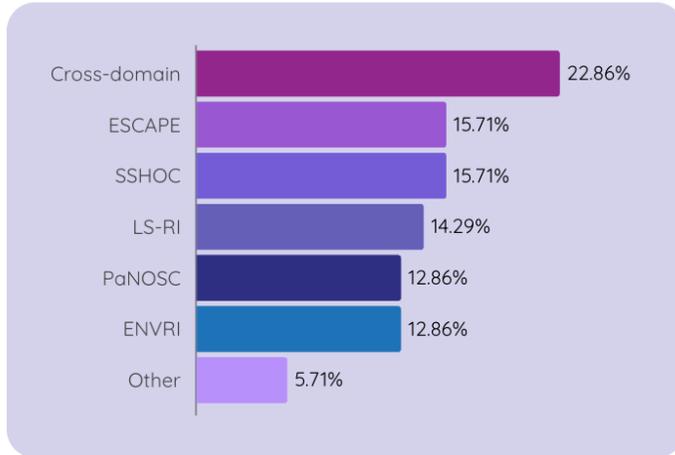

1 beyond the domains of the 5 SCs

- University: 18
- RI: 4
- RTO: 5
- SME: 3
- Other: 1

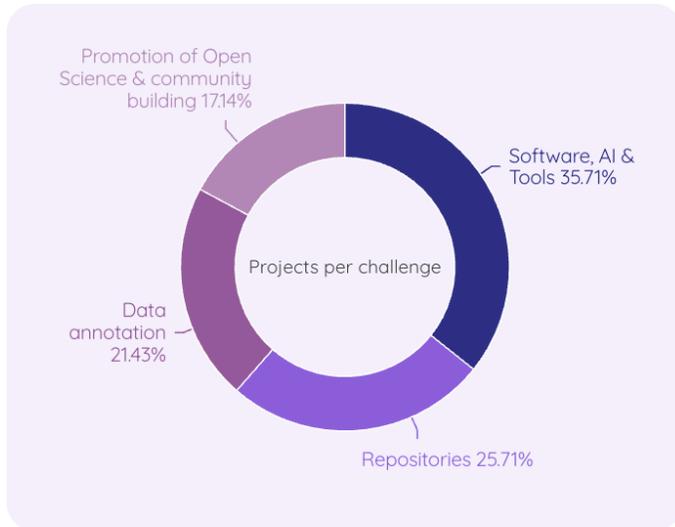

Funded Projects - Dashboard

This dashboard provides an overview of the areas of intervention of the 70 OSCARS funded projects dividing them by scientific domain and Open Science challenge.

OSCARS Open Calls - Organisations Involved

Open Science Clusters' Action for Research & Society

More than 200 organisations across 28 different countries have been involved in the OSCARS Open Calls

Country	Organisations
Germany	41
France	23
Spain	15
UK	13
Belgium	10
Italy	8
Switzerland	7
Netherlands	5
Austria	5
Portugal	4
Slovenia	4
Greece	4
Norway	3
Czech	3
Slovakia	3
Denmark	3
Poland	3
Hungary	2
Finland	2
Romania	2
Croatia	2
Sweden	2
Ukrain	1
Ireland	1
Bulgaria	1
Estonia	1
Philippines	1
Australia	1

ACTIVITY	Open Call 1	Open Call 2
Help Desk Service	180 questions received and answered	700 questions received and answered
Launch event	~400 attendees (onsite and online)	~1000 registered participants, ~500 attendees (online)
Recordings of the event	On Youtube , website and social media	On Youtube , website and social media
Vídeo tutorial	Published on Youtube	
Ask me anything sessions	4 sessions organised, ~240 attendees, +280 questions. Event on Indico	One session, 201 participants, 155 questions. Event post on website . Q&As published

Overview of the actions carried out for the promotion of the OSCARS Open Calls

OSCARS WP4 Overview - Impact Metrics

Key Statistics Summary

OPEN CALLS' SUPPORT

2 LAUNCH EVENTS ORGANISED
and video recordings published

5 ASK ME ANYTHING SESSIONS

435+ QUESTIONS ANSWERED

HELP DESK & FAQ SECTION IMPLEMENTED

2 VIDEO TUTORIALS PUBLISHED

1000+
OVERALL
ATTENDEES

COMMUNITY BUILDING

122 CONSORTIUM MEMBERS
meeting yearly at OSCARS AGMs, and periodically in WPs meetings, Executive Board and Science Cluster Board meetings

126 FUNDED PROJECT REPRESENTATIVES
meeting yearly at OSCARS AGMs, and periodically informed about OSCARS initiatives

EVENT PARTICIPATION

30+ EVENTS ORGANISED/ATTENDED

1500+ ATTENDEES
IN THE 15 ORGANISED EVENTS

VIDEO CONTENT

67 VIDEOS ON OSCARS OPEN SCIENCE PROJECTS

11 SPECIALISED VIDEOS: INTERVIEWS WITH SCIENCE CLUSTERS, OSCARS AGM SUMMARY, INTRODUCTION TO OPEN CALLS

SOCIAL MEDIA ENGAGEMENT

1460+ FOLLOWERS

200+ POSTS PUBLISHED

100k+ IMPRESSIONS

7,66% ENGAGEMENT RATE

10k+ CLICKS ON POSTS

7 NEWSLETTER ISSUES
WITH 43,64% AVERAGE OPEN RATE

4000+ VIEWS ON YOUTUBE

ARTICLES ON OPEN SCIENCE

400+ VIEWS of the media articles on Open Science challenges addressed by OSCARS and its projects
200+ DOWNLOADS

435 VIEWS of the white paper with insights from the 1st OSCARS AGM
174 DOWNLOADS

CO-CREATION

57+ COLLABORATORS involved in open science articles

Open Science Projects

OSCARS funded projects define their key contributions to EOSC and the Science Clusters

In response to a questionnaire shared in the first half of 2025, the Open Science projects funded via the 1st OSCARS...

Published on 16 October 2025

What are OSCARS-funded projects contributing to the EOSC and the Science Clusters?

- Metadata and standardisation platforms for data discovery and interoperability.
- Open-source and AI-powered data processing tools.
- Knowledge graphs and semantic web resources.
- User platforms for data exploration and visualisation.
- Datasets and domain resources for reuse.
- Training materials and community support for adoption of Open Science.
- Sustainable and federated infrastructures for long-term reuse.

A spectrum of EOSC-ready assets

Funded by
the European Union

Enhanced open access publications

**Scientific networks strengthened
within and across communities**

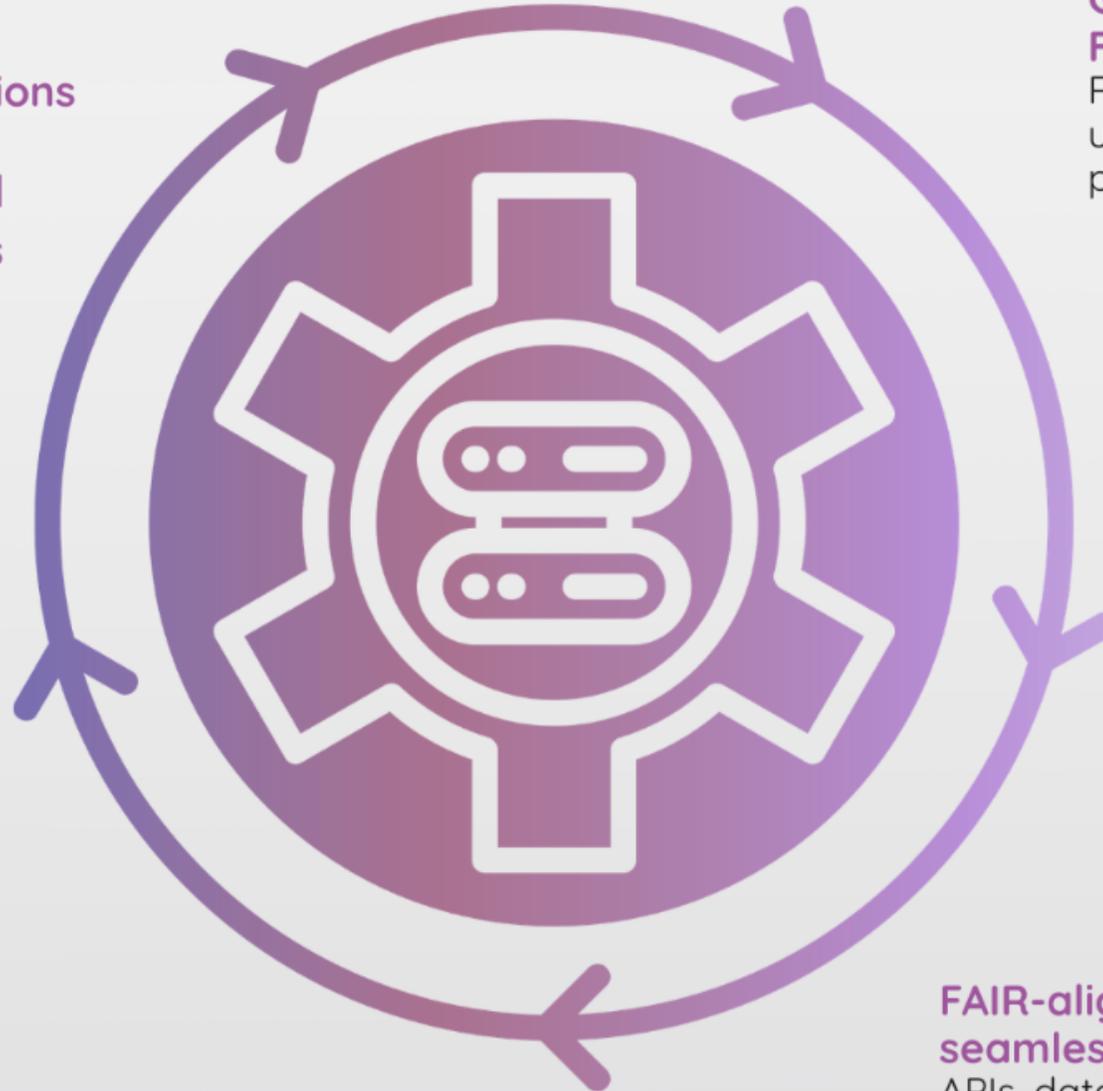

**Capacity strengthened through
training resources & events**

Webinars, tutorials, hackathons,
dataset training, teaching
material, email courses,
bootcamps, textbooks, materials
& platform development

**New and upgraded software
and (AI) tools implemented:**

Design, development and
implementation of tools &
technologies (for data
annotation, search, visualisation,
analysis, teaching)

Enhanced data analysis and exploration capacity
Jupyter Notebooks, analytical workflows, data dashboards

**Governance frameworks and
FAIR data policy adoption:**
Regulatory documentation, DMPs,
user requirements collection and
publication, gap analysis, reports

**FAIR compliance of newly
collected datasets:**
datasets, surveys

**FAIR and standardised data
curation practices
implemented:**

Data cleaning & processing
workflows, (meta)data standards
& protocols, vocabularies (and
their integration), ontologies,
annotation pipelines and tools, new
data classification models,
metadata schema and knowledge
graphs & maps.

**FAIR-aligned data preservation and
seamless access**

APIs, data catalogues, repositories,
database, datahub, data portals

1) Structured Monitoring & Results Consolidation

- Ongoing collection of updates and scientific/technical results from funded projects
- Systematic tracking of outputs across the research data lifecycle
- Identification of EOSC-ready assets and reusable services

2) Updated Dissemination & Exploitation Strategy

- Revision of dissemination approach based on:
 - Questionnaire feedback from funded projects
 - Outcomes of discussions at 2nd AGM
- Targeted communication of high-value assets to:
 - Science Clusters
 - EOSC stakeholders
 - Research communities beyond the consortium

3. OSCARS Impact Report (M35 – November 2026)

- Consolidated analysis of:
 - Outputs and outcomes
 - Cross-cluster interoperability achievements
 - FAIR and Open Science adoption indicators
- Integration of survey data and portfolio-level metrics

4. Cross-WP Needs Collection & Support Alignment

- Systematic collection of needs from other WPs
- Identification of required support
- Coordination to ensure WP4 activities align with:
 - Competence Centres (WP1)
 - Cluster portfolio management & composability (WP2)
 - Mentoring & feedback mechanisms (WP3)

5. Timeline Refinement & Adaptive Planning

- Update of WP4 timeline based on:
 - Feedback from funded projects
 - Maturity level of outputs
 - EOSC integration opportunities

OSCARS

Thank you
