Spring EPICS collaboration meeting 2026

lundi 20 avril 2026 - vendredi 24 avril 2026

ENS Saclay (Ecole Normale Supérieure, Université Paris Saclay)

Programme Scientifique

We invite you to present your work and ideas related to EPICS, including - but not limited to - the following categories.

Please start submitting your abstracts!

Status reports

Project updates and workgroup reports

EPICS Core

Updates to EPICS 'core', Channel and PV Access; Reports on deployments of EPICS 7

Cybersecurity

How do you deal with network security, remote access to the control system, authentication, authorization?

User Interfaces, Client Tools, Operational Tools

Operators interfaces, web solution, desktop solution, network client tools, ...

System Management

How do you build, deploy, maintain your EPICS setup? (computing and network infrastructure, software deployment, release management, ...)

Hardware, Driver/Device support

Support for new hardware, timing systems, FPGA H/W Platform, µTCA, pizza box, updates to existing hardware support, ...

Experiment control, data acquisition, data analysis, AI/ML

Tools to automate experiments, to collect data, and how you then use that data

Others

Topics that do not fit any of the above
