Colloque GANIL 2026

FISSION

lun. 21 septembre

09:15

FISSION

Session | Responsable de session: Dr Antoine Lemasson

09:15 – 09:40 **Invited talk**

Orateur

MANUEL CAAMAÑO FRESCO

09:40 – 10:05 **Invited talk**

Orateur

Dr Pierre Morfouace

10:05 – 10:25 **PISTA@VAMOS: Upgrade of the Fission Program in Inverse Kinematics at GANIL**

Orateur

Dr Diego RAMOS DOVAL

10:25 – 10:45 **Investigation of Shell Effect Damping in Nuclear Fission Using VAMOS and PISTA**

Orateur

Theodore Efremov

10:45

mar. 22 septembre

11:10

FISSION

Session | Responsable de session: MANUEL CAAMAÑO FRESCO

11:10 – 11:35 Invited talk**Orateur**

Guillaume Scamps

11:35 – 11:55 Fission studies at the ISOLDE Solenoidal Spectrometer**Orateur**

Maria Vittoria Managlia

11:55 – 12:15**Isotopic fission fragments yields in the Thorium region produced in inverse-kinematics with a ^{232}Th beam****Orateur**

Alex Cobo Zarzuelo

12:15 – 12:35 Isotopic yield distributions of transfer-induced fission from ^{238}U on light targets**Orateur**

Beatriz Errandonea

12:35 – 12:55 Evolution of the fission fragment angular momentum**Orateur**

Katarzyna Mazurek

12:55 – 13:15**Probing fission fragments spin distribution from $^{238}\text{U} + ^9\text{Be} \rightarrow ^{247}\text{Cm}$ using AGATA & VAMOS++****Orateur**

J. Bequet

13:15
