

Programme des sessions

11-13 mars 2026

Rencontres de Physique des Particules 2026

Particle cosmology

mer. 11 mars

14:10

Particle cosmology

Session | Site: Montpellier

14:10 - 14:50 Review talk: Gravitational Waves from Black Hole Reheating**Orateur**

Dr Yann Gouttenoire

14:50 - 15:10 Interacting dark sector with intrinsic entropy couplings**Orateur**

Dr Elsa Teixeira

15:10 - 15:30 Gravitational waves from flavoured SU(2) early-universe phase transitions**Orateur**

Anna CHRYSOSTOMOU

15:30 - 15:50 Constraining long-lived dark sector particles with Lyman-alpha and CMB**Orateur**

Sonali VERMA

15:50 - 16:10 Quantum (and classical) detection of gravitational waves: scope and limitations**Orateur**

Paolo Bilisco

16:10
