

Programme des sessions

11-13 mars 2026

Rencontres de Physique des Particules 2026

Neutrinos

mer. 11 mars

16:40

Neutrinos

Session | Site: Montpellier

16:40 - 17:20 **Review talk: Neutrinos**

Orateur

Salvador ROSAURO-ALCARAZ

17:20 - 17:40

Primordial lepton asymmetries: new constraints and consequences for sterile neutrino dark matter

Orateur

M. Julien Froustey

17:40 - 18:00

Neutrino interaction rates at MeV temperatures and their role in decoupling

Orateur

Greg Jackson

18:00 - 18:20

Long-Lived Particles from Meson and Muon Decays at Rest at Spallation Sources

Orateur

Salvador URREA GONZALEZ

18:20
