Exploratory analysis of salt deposits distribution in the Okavango Delta (Botswana) using satellite data.

lundi 30 mars 2026 13:40 (20 minutes)

This poster will discuss about the preliminary results of a teledetection study in the Okavango Delta (Botswana). The aim of the study is to analyse the spatial and temporal distribution of salt deposits on the surface of the Delta, using Sentinel-2 and Pleiade-NEO images.
