

Industrial partnerships within ET-France

First meeting organized in March 2023 with MESR to present ET to the French industries interested by this project

=> About 30 companies were present and have shown interest to works with us, either through dedicated/joint R&D program, either as manufacturer of components

Follow-up in Sept. 2023 with a network of French companies (PIGES) involved in Big Sciences

The need for an Industry Liaison Officer for Virgo+ET has been identified at IN2P3 & DGRI : candidate ?
