* Fred : yes again same photo, I plan to go to top of Notre Dame next saturday to do photos

Welcome and local news, Top LHC France 2026, 26th May 2026

Workshop venue

Workshop & coffee breaks
- Amphi Charpak

Tomorrow morning (26th May):

- some changes wrt (earlier) schedule
⇒ we start at 9:00 (as usual)
⇒ we finish around 13:00 !
⇒ no afternoon session !

Tomorrow noon/1 o'clock (after sessions) :

- restaurant Ardoise possible choice
- standard CROUS (Restau U) is opened but pretty crowded
- suggest go for local cafés & boulangeries and/or try to escape sun in botanic garden !

Social event

This year – as last year - no restaurant all together
(even if last year in practice we almost managed in practice)

We wanted to do a welcome drink at
the 24th level of the Zamansky tower

... but once again was not possible

So instead we organize as last year the welcome drink
at the entrance of the Charpak amphiteatre

Enjoy the nice weather !
at 18:00 no more sun close to the amphi but still very hot
Go mollo on the apero !*

* and please keep some for me (Fred)

For speakers

Talks by default have 20 mn + 10 mn for questions

Please keep your time

We want to keep time for the question part

Young(er) people ask first ? !

Our schedule is tight

- this evening to go to dinner place + hotels (?)
- tomorrow afternoon as people want to catch their trains
