

Cosmic rays & their interstellar medium environment CRISM-2011

mercredi 29 juin 2011

Cosmic rays at multiple galactic scales. - Main amphitheater (09:00 - 11:55)

time	[id] title	presenter
09:00	[24] Cosmic rays and the thermal instability	Prof. HARTQUIST, Thomas
09:35	[52] Alfvén Wave Amplification and Self-Containment of Cosmic-Rays Escaping from a Supernova Remnant	Prof. FUJITA, Yutaka
09:55	[119] Equipartition calculation for supernova remnants	Prof. UROSEVIC, Dejan
10:15	Pause	
10:45	[25] Cosmic ray driven galactic magnetic field dynamo	Dr HANASZ, Michal
11:20	[116] Magnetic turbulence in the shock precursor and CR acceleration	Dr ANDREY, Beresnyak
