

Cosmic rays & their interstellar medium environment CRISM-2011

jeudi 30 juin 2011

Cosmic Ray propagation - Main amphitheater (09:00 - 12:35)

time	[id] title	presenter
09:00	[30] Cosmic Ray Transport in the Heliosphere and its Connection to the Local Interstellar Spectra	Dr FICHTNER, Horst
09:35	[53] Three-dimensional anisotropic transport of solar energetic particles in the inner heliosphere	Dr KARTAVYKH, Yulia
09:55	[29] Cosmic ray propagation in the interstellar medium	Prof. PTUSKIN, Vladimir
10:30	Pause	
11:00	[33] A Markov Chain Monte Carlo technique to sample transport and source parameters of Galactic cosmic rays	Dr PUTZE, Antje
11:20	[32] The Long-Term Azimuthal Structure of the Galactic Cosmic Ray Distribution due to Anisotropic Diffusion	M. EFFENBERG, Frederic
11:40	[54] Models of GeV-TeV Galactic cosmic ray electrons	Dr LAVALLE, Julien
