

Cosmic rays & their interstellar medium environment CRISM-2011

mardi 28 juin 2011

Interstellar medium - Main amphitheater (16:25 - 18:35)

time	[id] title	presenter
16:25	[111] Magnetic fields in the interstellar medium	Dr FERRIÈRE, Katia
17:00	[112] Fermi gamma-ray `bubbles' from stochastic acceleration of electrons	Dr MERTSCH, Philipp
17:20	[113] The CO-H ₂ conversion factor of diffuse ISM: Bright 12CO emission also traces diffuse gas	Dr PÉTY, Jérôme
17:40	[114] Turbulence in the interstellar medium	Dr HENNEBELLE, Patrick
18:15	[115] Non-thermal emission from molecular clouds in the Galactic centre: Illumination vs cosmic rays.	Dr TERRIER, Régis
