Planning of test beams for 2011

Jan BLAHA

Micromegas Physics Meeting, 16 Sep. 2010, LAPP

In2p

Planning for 2011

Question for discussion:

What we will test? Prototypes with new electronics? How many of them and which size?

How much time of testbeam we will request?

When and where? at PS or SPS?

With who? rd51, CALICE DHCAL, CALICE WHCAL?
