

30 years of strong interactions: a three-day meeting in honor of Joseph Cugnon and Hans-Jürgen Pirner

vendredi 8 avril 2011

Heavy-ion collisions (09:00 - 10:30)

-Présidents de session: Lech Szymanowski

time	[id] title	presenter
09:00	[27] First results from Pb+Pb collisions at $\sqrt{s_{NN}}=2.76$ TeV	Prof. STACHEL, Johanna
09:30	[22] Cold Nuclear Matter effects on Quarkonium production with extrinsic transverse momentum	Dr MATAGNE, Nicolas
10:00	[14] A minimal quasiparticle approach for the QGP and its large- N_c limits.	LACROIX, Gwendolyn

Heavy-ion collisions (11:00 - 11:30)

-Présidents de session: David d'Enterria

time	[id] title	presenter
11:00	[4] A Fixed Target Experiment at the LHC: a precision version of RHIC ?	Dr LANSBERG, Jean-Philippe
