

## Rencontre de Physique des Particules LPC-Clermont, 13-14 janvier 2011

### 2<sup>nd</sup> Bulletin, 9 January 2011

Dear Colleagues,

As we are drawing close to the Rencontres, here is some further information.

- To reach the **Campus des Cézeaux** where the meeting will take place, the easiest public transport from the city center is the **tramway A** (direction **La Pardieu Gare**, stop at **Cézeaux-Pellez**). From the railway station or by car see :  
<http://clrwww.in2p3.fr/www2008/spip.php?article=1>.
- Lectures will take place in the "**Amphi Recherche**", a round building next to the Laboratoire de Physique Corpusculaire (LPC) entrance. Please consult the plan of the campus for the exact location. Coffee breaks will be held on the 1<sup>st</sup> floor in a room across the central hall, a.k.a. "The Aquarium".
- The preliminary timetable has been published, and you can find it in the web page <http://indico.in2p3.fr/conferenceTimeTable.py?confId=4451>
- The talks will be either in English or French. In the latter case, slides in English are preferred (please bear in mind that there will be foreign participants).  
Please **upload your slides** to the web page as soon as possible.
- A wifi connection (web & imap) will be available.
- To make the payment of lunches and dinner smoother, we would appreciate if each participant's contribution (15€ per lunch and 20€ for the evening dinner) could be collected at the Registration (8h30-9h00 and 10h05-10h35 on Thursday 13<sup>th</sup>). Please **prepare either 2 separate cheques, or 50€ (cash)**.
- Please check and, if needed, modify your arrival and departure times on the web page, as well as the information about meals.

Happy 2011! Looking forward to welcoming you in Clermont-Ferrand,

Jean-François Mathiot  
Vincent Morénas  
Jean Orloff  
Ana Teixeira
