

## Rencontre de Physique des Particules

LPC-Clermont, 13-14 janvier 2011

### 1<sup>st</sup> Bulletin, 16 December 2010

Dear Colleagues,

we would like to draw your attention to the following points, concerning the RPP2011:

- We have updated the list of **available hotels**. The [Maison Internationale Universitaire](#) is among the best options and a small **group reservation** has been done for Thursday night: do mention “Rencontre des Particules” when you call. All these hotels still have some rooms, but not that many: book now! More hotels can be found on [booking.com](#) or [clermont-fd.com](#).
- For those of you planning to register and **present a contribution** (and those already registered, but who did not send an abstract), please do not forget to **submit the abstract** of the presentation **as soon as possible**. (The timetable has a limited amount of slots...)
- Participants requiring a **Certificate of Attendance** should mention it in the “remarques/suggestions” section of the webpage, or send an email to [rpp2011@clermont.in2p3.fr](mailto:rpp2011@clermont.in2p3.fr)
- Those planning to attend the **dinner** and who have special **dietary constraints** (e.g. vegetarian) should also mention that when registering, or via email. Since we need to reserve tables for **mid-day meals**, we also need to know if you are **planning to have lunch on Thursday and Friday**. These questions have been added to the registration form; those already registered can either edit their form or **contact us directly** by email.
- When known, and if possible, please let us know of your expected (tentative) **arrival** and **departure schedule**.

Looking forward to welcoming you all in Clermont-Ferrand,

Jean-François Mathiot  
Vincent Morénas  
Jean Orloff  
Ana Teixeira
