

# 2011 BASP Frontiers Workshop

## mardi 6 septembre 2011

### SP / Various sparsity and sampling applications (15:40 - 17:20)

time	[id] title	presenter
15:40	[27] A general framework for static and dynamic tomography with regularity constraints	Prof. BOURSIER, Y.
16:05	[28] Ultrasound tomography - inverse problem and regularization	Dr JOVANOVIC, I.
16:30	[29] Irregular Wideband Array - a proposal for a radio astronomical and biomedical imaging interferometer	Dr CAROZZI, T.
16:55	[30] The finite harmonic oscillator and its applications	Prof. SOCHEN, N.
