

Updated search for non-SM physics in $B \rightarrow K(^*) \mu^+ \mu^-$ decays at CDF

vendredi 22 juillet 2011 12:30 (15 minutes)

We present updated measurements of branching fractions, polarization, and muon forward-backward asymmetry in $B \rightarrow K(^*) \mu^+ \mu^-$ final states using 6.7/fb of data collected by the CDF detector.

A search for $\Lambda_b \rightarrow \Lambda \mu^+ \mu^-$ decays will also be shown.

The results are the most sensitive from a single experiment to date.
