

Updated search for $B_d/B_s \rightarrow \mu^+\mu^-$ decays at CDF

vendredi 22 juillet 2011 11:15 (15 minutes)

We report the latest results of a CDF search for $B \rightarrow \mu\mu$ decays using 6.9/fb of data. Doubled statistics with respect to the previous iteration and several analysis improvements provide results that are the most sensitive from a single-experiment to date.
