

Fall meeting of the GDR PH-QCD: nucleon and nucleus structure studies with a LHC fixed-target experiment and electron-ion colliders

mercredi 19 octobre 2011

General Introductory session - Amphitheater Irène Joliot-Curie (09:30 - 12:20)

time	[id] title	presenter
09:30	[0] PDFs	Dr WATT, Graeme
10:00	[5] Physics at EIC	Dr MARQUET, Cyrille
10:30	[3] Intrinsic Heavy Quark Phenomena	Prof. BRODSKY, Stanley J.
11:00	Coffee break	
11:30	[25] Probing intrinsic heavy quark distributions through gamma+Q production	STAVREVA, Tzvetalina
11:50	[20] UA9 and the possibilities for beam extraction at the LHC	Prof. SCANDALE, Walter
