

European Gamma and
Ancillary Detectors Network

EGAN 2012 Workshop

First Announcement

Dear Colleagues,

We are pleased to announce that the 2nd EGAN workshop will take place in Orsay, France, on June 25-27, 2012.

After the first very successful edition, which was dedicated to the status of gamma-spectroscopy research and its perspectives, this second edition will focus more on aspects related to the use and development of ancillary devices. This workshop will allow young and senior researchers to get together and discuss the achievements, issues and future directions associated with ancillary detectors used in conjunction with gamma-ray detectors.

The annual open meeting of the AGATA Collaboration and the meetings of the EGAN working groups will also be held during the time of the workshop.

Financial support will be available upon request, with special priority to young researchers.

Detailed information about the meeting will soon be available on the workshop website: <http://indico.in2p3.fr/event/egan2012>.

Best regards,

The Local Organizing Committee:
V. Frois (IPN Orsay)
A. Gadea (CSIC, Valencia)
G. Georgiev (CSNSM)
S. Lenzi (INFN – Padova)
J. Ljungvall (CSNSM)
A. Lopez-Martens – chair (CSNSM)
J. Simpson (STFC, Daresbury)
D. Verney (IPN Orsay)
