Precision lifetime study in the neutron-rich $N=84$ isotone ^{140}Ba from DSAM measurements following Coulomb-barrier alpha-transfer reactions on a ^{136}Xe beam

mercredi 27 juin 2012 12:10 (15 minutes)

Orateur: M. STAHL, Christian (Institut für Kernphysik, Technische Universität Darmstadt, Germany)

Classification de Session: Contributions (2) - Chair: A. Ataç Nyberg
