lundi 25 juin 2012

Selected contributions (1) - Chair: W. Korten (14:30 - 16:00)

time	[id] title	presenter
14:30	[100] Anomalous transition strengths in 168Os	Dr GRAHN, Tuomas
14:45	[101] Nuclear structure studies of the neutron-rich Rubidium isotopes using Coulomb excitation	M. SOTTY, Christophe
15:00	[102] Magnetic strength and shell evolution in light nuclei	Dr MÜCHER, Dennis
15:15	[103] POLAREX: New spin-oriented nuclei facility at ALTO	Dr GAULARD, CAROLE
15:30	[104] A new detector setup for gamma spectroscopy and lifetime measurements at the Tandem Accelerator Laboratory of NCSR "Demokritos"	Dr MERTZIMEKIS, Theo J.
15:45	[105] Geant4 simulations of Recoil Filter Detector performance in nuclear structure studies with stable and radioactive beams	M. KRZYSIEK, Mateusz
