Thanks

- Thanks to LPNHE-Paris and University Paris VI (Pierre et Marie Curie) to host the HCP 2011 conference in this nice setting.
- Thanks to IN2P3 / CNRS for very strong support

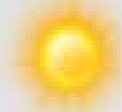

- Thanks also to CEA-Saclay, FRIF, P2I, College de France
- All these supports have allowed for ~50 reduced fees for students to present posters at the conference.

Schedule

- **Sessions start at 9AM every morning.**
- **Generally: 3 sessions of 1h45' and one longer session every day. Check exact schedule**
- **All talks are followed by a 5mn discussion.
Speakers, please stay on time, agenda is full.**
- **Coffee breaks take place in Salle Marie-Curie**
- **Poster session is on Thursday afternoon.**
(considering starting it at 3.30pm since at 5pm it might be too cold.
Heavy Flavor session would then be in two parts)
Ask Sandro and Yuji for key of glass boxes. Put them Tuesday.

Social Program

- **Welcome reception** at 19.30 this evening, in Salle Marie-Curie (where we take coffee breaks). We might have some champagne, if the results are good ;)
- **Banquet** is on Thursday evening 20.30
Boat **River Palace** to board close to Metro Javel (direct from here in ~20mn). Seated dinner with limited space, so nominal tickets have been issued. Thanks to those who could not make it and did let us know, this will allow our support staff to get on board
- **Lunches** are not provided. Find your favorite place in the neighborhood. Look for set-menu for best deals.

Upload talks, abstracts, Posters

- Upload talks at least **FOUR hours** before you session (previous day for morning sessions, latest during the first morning session if it your talk is in the afternoon)
- Upload your abstract and your poster by **WEDNESDAY** noon. You will thus get better questions.
- Instructions for these uploads are on the web page (the modification key is **hcp2011**)
- Instructions for **Proceedings** will be sent out just after the conference. Deadline to be in the proceeding is **12-Jan-2012**

- In this first session, possible swap between talk 2 and 3.
- New talk has been added over the w.e.:

Search for CP violation in two-body charm decays at LHCb (M. Charles/Oxford).

this will be the last talk of the session just before the welcome reception, could be interesting ;)

Any questions?

- **Ask now!**
- **or ask any time members of the LOC, in particular**
Sandro De Cecco, Yuji Enari, or Gregorio Bernardi
(phone numbers provided on the web page)

**THANKS to all of you for coming to the Conference,
we are more than 250 participants.**
