Heavy Flavours (1)

Session | Site: | Convener: P. Campana

16:45 – 17:05 CKM and CP violation theory

Orateur
E. Kou

17:10 – 17:30 CKM angle measurements and search for CPV in charm @ LHCb

Orateur
M. John

17:35 – 17:55 CKM and CP violation results @ Tevatron

Orateur
R. Jesik

18:00 – 18:20 CP-violation studies in Bs decays @ LHCb

Orateur
B. Souza de Paula

18:25 – 18:45 Constraints on BSM Physics from BaBar & Belle

Orateur
G. Calderini

18:50 – 19:10 Complementarity of super Flavor Factories with Hadron machines

Orateur
A. Bevan

19:15 – 19:35 Search for CP violation in twobody at LHCb

Orateur
M. Charles

19:35
