eGI European Grid Initiative   **Functions questionnaire**   www.eu-egi.org

EGI/NGI function	Importance of the function*	Importance of implementation at the NGI level*	Importance of implementation at the EGI level*
Operation of a reliable grid infrastructure			
Fast addition of new experimental services			
Accounting, reporting & monitoring			
Tools implementation			
Independence of tools			
Coordination of middleware development and standardization			
Middleware development			
Development of build and test systems			
Operation of build and test systems			
Selection, validation, integration and deployment of components			
Mechanisms for resource provisioning to virtual organisations			
Application support			
VO interfaces to middleware			
VO interfaces to operation			
Community building			
Help Desk			
Training			
Outreach and dissemination			
Industry take-up			
Contribution to standardisation bodies (OGF, …)			
Definition of policy, strategy of international cooperation, involvement in e-IRG			
Representation of European Grid efforts, international cooperation, and ESFRI			
Network coordination			
Security			
Virtual organization management			
Virtual organization management coordination			

*) Please provide answers in range 0 (no importance) to 5 (utmost importance).

 European Grid Initiative

Functions questionnaire

NGI related issues		Do you operate?**	Do you plan to operate?*		
Middleware stacks					
ARC					
gLite					
UNICORE					
Other (please specify)					
Please fill the following effort table for the effort your NGI has spent on the different GRID activities in year 2007. If possible, provide titles of the appropriate workpackages					Year FTE
	Middleware			Total	
				Funded by EU	
	Operations			Total	
				Funded by EU	
	User oriented activities			Total	
				Funded by EU	
	Dissemination, community building			Total	
				Funded by EU	
	SUM on all the above activities			Total	
				Funded by EU	
Please list EU funded projects your NGI is involved to					
Please provide any additional information on your NGI and any recommendation that you think useful for the definition of the EGI/NGI's functions and for evaluating the effort needed to sustain them from 2010 on					

*) Please provide answers in range 0 (no plans) to 5 (definitively yes).
**) Please provide answers yes or no.
