DIRAC User Workshop

lundi 29 octobre 2012 - mercredi 31 octobre 2012

CPPM, Marseille

Programme Scientifique

The Workshop is an opportunity for the DIRAC users and developers to meet and to exchange experience of usage of the DIRAC services and software. Developers will present the current work and the future plans. Users will report on their projects involving DIRAC and will formulate further requirements to the DIRAC software. We are planning also to reserve time for focused discussions of particular applications between their users and developers.

The detailed program will come soon. Stay tuned !
