

# Physics at A Fixed Target Experiment (AFTER) using the LHC beams

## lundi 11 février 2013

### Review talks: Heavy-ion & Spin physics (09:00 - 12:50)

time	[id] title	presenter
09:00	[31] The Quarkonium Analyses of the QGP: Why Fixed-Target Studies?	Prof. SATZ, Helmut
09:50	[32] The future of heavy-ion collisions from the experimentalist viewpoint	Dr RAKOTOZAFINDRABE, Andry
10:30	Coffee break	
11:00	[3] Target polarisation	Dr DIDELEZ, Jean-Pierre
11:30	[34] Spin theory	Dr LORCÉ, Cédric
12:10	[33] Drell-Yan measurements at COMPASS	Dr DENISOV, Oleg
