LHC calorimeter performance (Conveners : Luis Hervas, Tommaso Tabarelli de Fatis.) (09:00 - 12:00)

time	[id] title	presenter
09:00	[19] Status of the Atlas Liquid Argon Calorimeter and its Performance after three years of LHC operation	DE LA TORRE, Hector
09:15	[20] Electron and Photon Performance Measurements With The ATLAS Detector	BUAT, Quentin
09:40	[22] Role of the CMS electromagnetic calorimeter in the hunt for the Higgs boson through the two-gamma decay channel	DEJARDIN, Marc
10:05	[21] The challenges involving the calibration of the CMS Electromagnetic Calorimeter at the LHC	OBERTINO, Maria Margherita
10:20	[24] First years of running for the LHCb calorimeter system	MACHIKHILIYAN, Irina
10:40	[23] Calibration of the electromagnetic calorimeter of the LHCb experiment	SAVRINA, Daria
10:55	[25] Performance of Jet/MET reconstruction in CMS	ASAWATANGTRAKULDEE, Chayanit
11:20	[26] Performance of the ATLAS Tile Calorimeter	WILKENS, Henric
11:35	[27] Jets and missing transverse energy reconstruction, calibration and performance measurements with the ATLAS detector at the LHC	RESCONI, Silvia
