

Journée Théorie du CPTG

jeudi 18 avril 2013

Transitions de phase - Auditorium (10:00 - 12:30)

-Présidents de session: Serge FLORENS

| time | [id] title | presenter |
|-------|---|--------------------------|
| 10:00 | [12] Theories of the glass transition | Prof. BARRAT, Jean-Louis |
| 11:00 | [13] Mapping quantum spins onto a Majorana star | Dr BRUNO, Patrick |
| 11:30 | [14] Topological phases and surface states: Realizing Majorana fermions in hybrid superconducting systems | Dr HOUZET, Manuel |
| 12:00 | [15] Statistical transmutation in doped quantum dimers | Dr RALKO, Arnaud |
