■ “Korea is Supercom-blind”

- ❖ No supercomputer in Korea made the top500 list (2009. 6.)
- ❖ Korea used to have more than ten systems in the list

대한민국은 ‘슈퍼컴맹’ ‘세계 500대 리스트’ 16년만에 빠져

이호준기자 newlevel@etnews.co.kr

우리나라가 2009년 상반기 세계 500대 슈퍼컴퓨터 리스트에 단 한 대도 이름을 올리지 못하며 ‘슈퍼컴 후진국’으로 전락했다.

과학기술 부분을 넘어 국가 경쟁력의 원천으로 꼽히는 슈퍼컴 지 원해 마련이 시급하다는 지적이다. 23일(현지시각) 독일 함부르크 ‘인터네셔널슈퍼컴퓨팅콘퍼런스(ISC) 2009’에서 공개된 세계 500대 슈퍼컴 리스트에 따르면 한국은

지난 1998년 순위 집계가 시작된 지 16년 만에 처음으로 단 한 대도 500위권에 들지 못했다. 세계 슈퍼컴 리스트는 성능에 따라 상위 500대를 선정해 매년 6월과 11월 두 차례 발표된다.

한국은 지난해 11월에는 한국과학기술정보연구원(KIST)이 구축 중인 슈퍼컴 4호기가 277위로 유일하게 500위권에 들었지만 다른 나라의 슈퍼컴 성능이 전반적으로 향상되면서 이번 발표에서 제외됐다. 우리나라는 슈퍼컴 성능 합계

기준으로 국가 순위를 매기는 것조차 무의미해졌다. 한국의 국가 슈퍼컴 순위는 2003년 한때 6위까지 올랐으나 2006년 10위권 밖으로 밀려난 이후 지난해 31위까지 떨어졌다. 올해는 500위권 슈퍼컴을 한 대도 보유하지 못하면서 아예 집계 대상에서 빠졌다.

반면에 같은 아시아권에서는 중국이 가장 많은 21대를 리스트에 올렸으며, 일본(15대), 인도(6대) 등의 순이었다. 싱가포르·대만·홍콩 등도 각각 1대로 이름을 올렸다.

전자신문사와 엑스포를 공동 주최로 24일 삼성동 코엑스에서 개막한 ‘2009 신재생에너지가 장래의 전기자동차에 대해 설명을 듣고 있다. 26일까지 열리는 이번 전시회에는 7개 있다.

한국 녹색성장 强小

산업계 활용도 급증… 육성법 마련 시급

Supercomputing Act

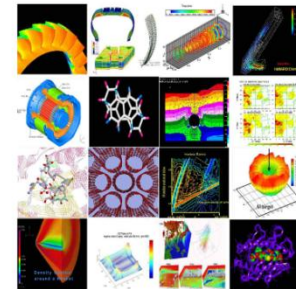

■ Early Discussion

- ❖ '98: Law system maintenance on national supercomputing

■ Discussion in National Assembly

- ❖ '04: “Urge law system for the vitalization of national supercomputing” (State Affairs Committee)
- ❖ '05: “Urge effective utilization of supercomputer” (Science and Telecommunication Committee)
- ❖ '06: “Urge law system maintenance on national institutes” (Assembly-man Ryu)
- ❖ '08: “Demand of comprehensive plan for the promotion of supercomputing” (Assembly-woman Kim)

국가 슈퍼컴퓨팅 육성전략

2006. 12.

한국과학기술정보연구원

■ Bill Consideration at National Assembly

- ❖ '09.09: Proposed in the 284th Regular Session
- ❖ '10.02: Open Forum on the Promotion of National Supercomputing
- ❖ '10.04: Invited Lecture on the Promotion of National Supercomputing
- ❖ '10.08: Introduced in the 293th Plenary Session of Education, Science and Technology Committee
- ❖ '10.11: Public Hearing
- ❖ '11.03: Approved in the Subcommittee on Bill Consideration
- ❖ '11.03: Approved in the 298th Plenary Session of Education, Science and Technology Committee
- ❖ '11.04: Approved in Plenary Session of Judiciary Committee
- ❖ '11.04: Approved in the 299th General Meeting
- ❖ '11.06: Act on “National Use and Promotion of Supercomputer” Enacted
- ❖ '11.12: Promulgate the Enforcement Ordinance and Regulation

■ Title

- ❖ “Utilization and Promotion of National Supercomputing”
- ❖ **Enacted:** 2011. 6. 7, **Implemented:** 2011. 12. 8

■ Goal

- ❖ Contributing to the enhancement of people’s quality of life and the national economic development... through the efficient implementation and systematic management of national supercomputing infrastructure

■ Key Actions

- ❖ Establishment and execution of plan for the promotion of national supercomputing ecosystem
 - Master Plan (5 years), Implementation Plan (1 year)
- ❖ National Supercomputing Committee
 - Chair: Secretary of Ministry of Science, ICT and Future Planning
 - Ministry Involved (9): **Ministry** of Science, ICT and Future Planning, **Ministry** of Strategy and Finance, **Ministry** National Defense, **Ministry** of Trade, Industry and Energy, **Ministry** of Health and Welfare, **Ministry** of Environment, **Ministry** of Oceans and Fisheries, Small and Medium Business **Administration**, Korea Meteorological **Administration**
- ❖ National Supercomputing Center
 - Support the planning and execution of national plan

National Supercomputing Plan

❖ 3 Strategies (or Areas)

- Expand adoption
- Efficient infrastructure (including human resource)
- R&D on core technology (including industry)

제1차 국가초고성능컴퓨팅 육성
기본계획('13 ~ '17)

제출자	교육과학기술부	기획재정부
	국방부	지식경제부
	보건복지부	환경부
	국토해양부	국가과학기술위원회
제출년월일	2012. 12. 4.	

Vision

Top 7 Nation for Supercomputing

**Expand the use of supercomputing
through the creation of new demand**

**Establish Top 10
supercomputing service infrastructure**

**Secure independent
supercomputing development capacity**

■ Expand the use of supercomputing through the creation of new demand

- ❖ Promote national research and development using national supercomputing
- ❖ Strengthen industry innovation by using national supercomputing
- ❖ Expand public and private service based on supercomputing
- ❖ Expand public participatory activities to promote the understanding of supercomputing

■ Establish global top 10 supercomputing service infrastructure

- ❖ Secure supercomputing resource in response to future demand
- ❖ Establish efficient national supercomputing service system
- ❖ Train demand-based experts for supercomputing ecosystem

■ Secure independent supercomputing development capacity and foster the basis for industrialization

- ❖ Secure independent development capacity for supercomputing system
- ❖ Expand R&D of original technology for the next generation supercomputing development
- ❖ Foster industry basis related to supercomputing

About NISN

■ Mission (Article 9, Clause 1)

- ❖ Support Promotion and Utilization of National Supercomputing

■ Function (Article 9, Clause 3)

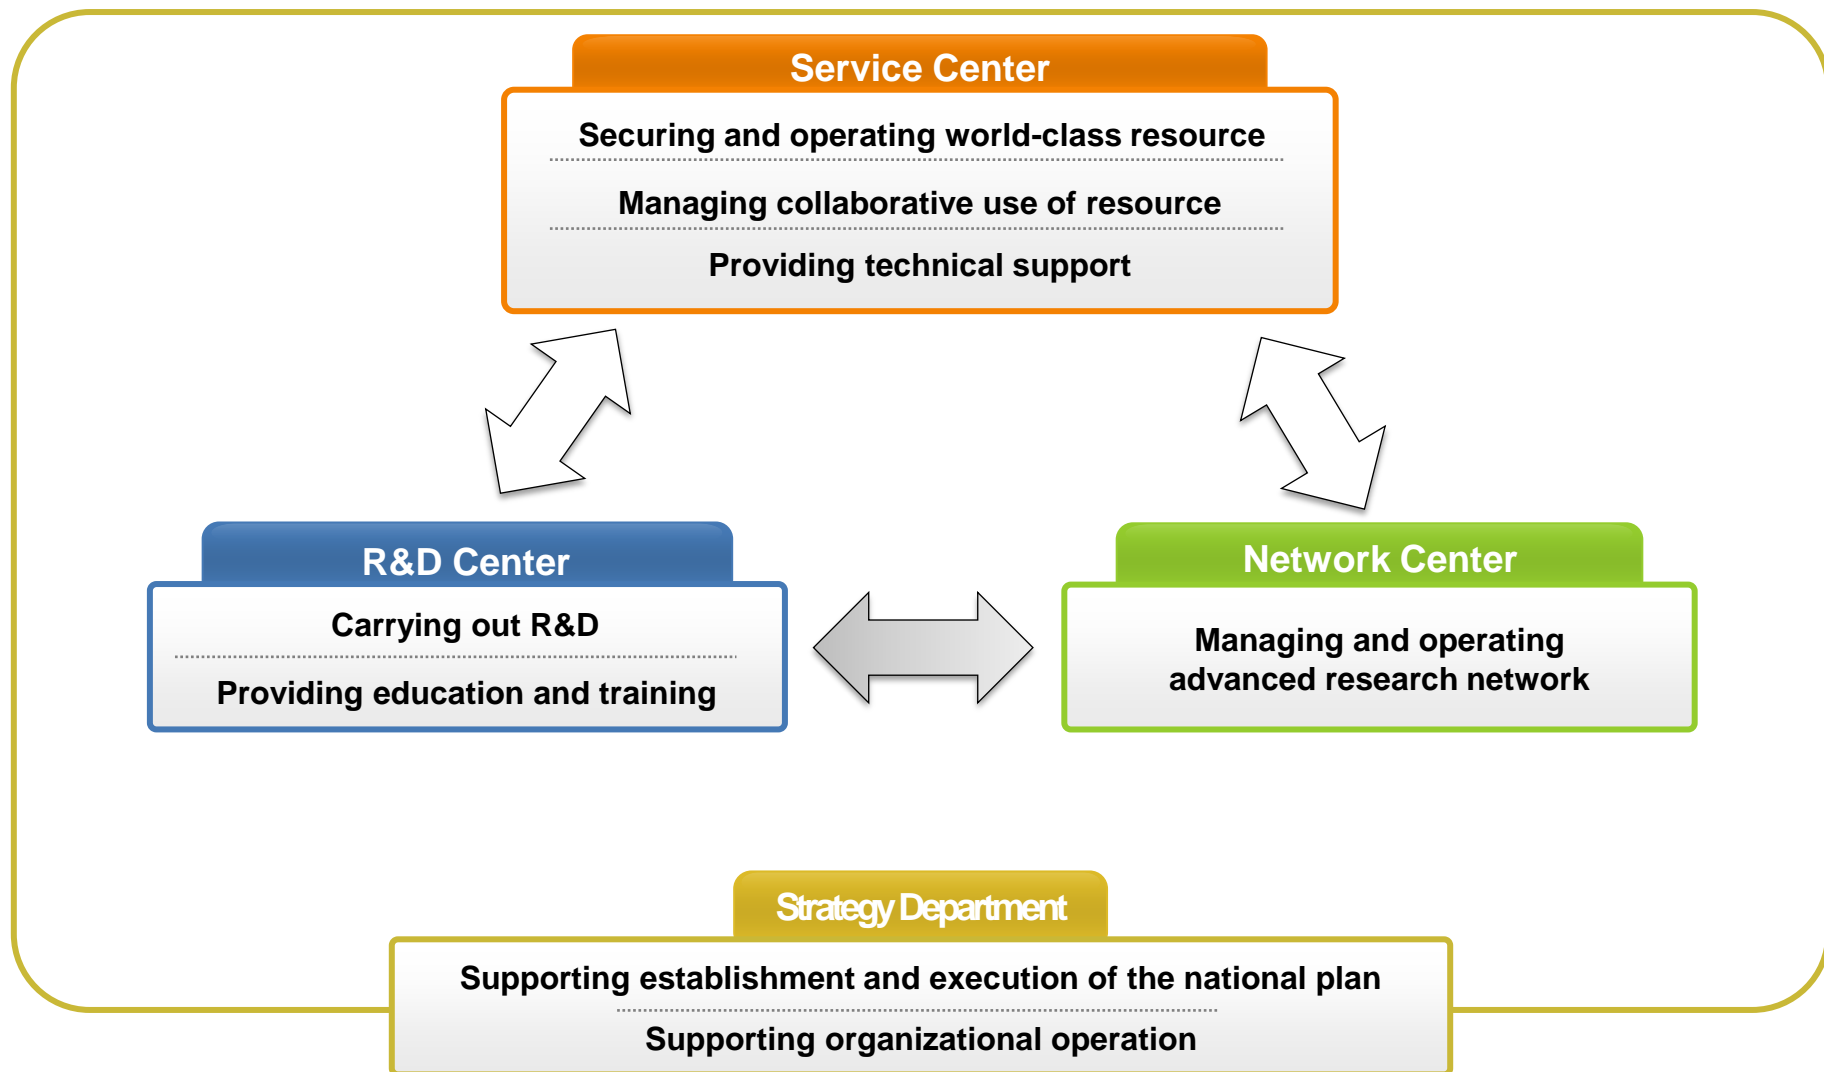

- ❖ Securing and operating world-class resource
- ❖ Managing collaborative use of resource
- ❖ Carrying out R&D on supercomputing
- ❖ Providing education, training, and technical support
- ❖ Managing and operating advanced research network
- ❖ Supporting establishment and execution of the national plan

■ Inauguration Ceremony (2012. 12)

- ❖ US: NCSA, Calit2 (NSF), NCCS, LBNL (DOE)
- ❖ Japan: AICS, CCS
- ❖ China: NSCC-TJ, CNIC, SSC
- ❖ Europe: JSC, CSC

■ Personnel (200 people)

Form of Employment

Degree Obtained

Supercomputing Infrastructure

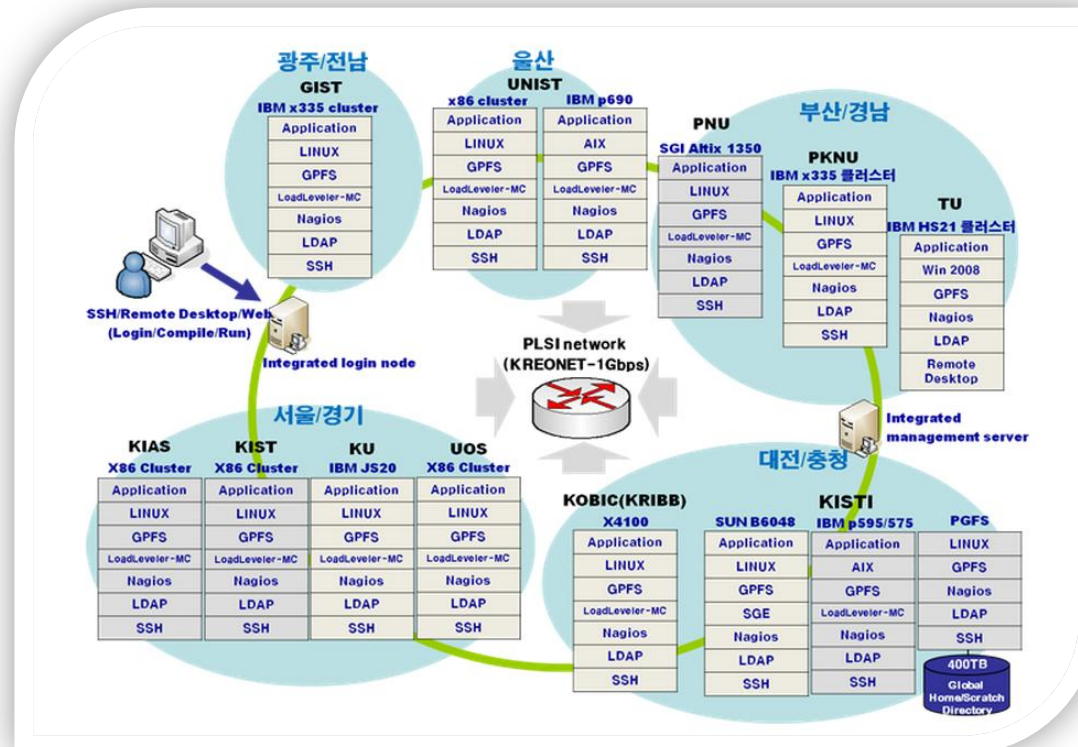

- ❖ KSCA was established in 2001 for collaborating for supercomputer operation, sharing of their resources, and developing operation technology
- ❖ 20 Members (university, research institute, government, industry)
- ❖ Main KSCA member have been joined to PLSI project since 2007 for sharing their resources and vitalizing regional HPC ecosystem

❖ Shared Infrastructure

- 11 Participants: KISTI, PKNU, PNU, UNIST, GIST, KIAS, ...
- Resource: 21 Systems, 8764 CPU, 102 TF (84 TF from KISTI)
- Service: Integrated System, User Portal, Support, Training

✓ Serving as **Pilot** National Supercomputing Infrastructure

- ❖ Secure supercomputing resource for responding to future demand
 - Construct systematic resource demand forecast and management system
 - Secure world-class supercomputing resource
 - Expand research network resource for supporting supercomputing service
- ❖ Establish efficient national supercomputing service system
 - Three layer architecture: national – specialized – interconnection
 - ✓ National center (NISN): world-class resource, support large scale national strategic projects, national service infrastructure leader
 - ✓ Specialized center: medium scale resource, support specific domain (or ministry), regional service leader
 - ✓ Interconnection center: institute-wide resource, support local demands, institute service leader

Computational Science Society

■ Introduction

- ❖ Korean Society for Computational Sciences and Engineering(KSCSE) was founded on October of 2009
- ❖ Promote and encourage the domestic computational science and engineering in science and industry
- ❖ Homepage www.cse.or.kr

■ Statistics (as of 2013)

- ❖ President
 - Dong-Pil Min
- ❖ Board Members
 - 6 Vice-Presidents
 - 20 Officers
- ❖ Membership
 - 386 People

Activity

- ❖ 2009
 - Inaugural Meeting and Workshop (10.12, COEX Intercontinental Hotel)
- ❖ 2010
 - Invited talks & Multicore/GPU Computing Workshop (5. 27~28, KIAS)
 - Fall Conference (12.6, Ramada Hotel)
- ❖ 2011
 - Incorporated Association (1.31, MEST)
 - Spring Conference & MPI/Heterogeneous Computing (5.19~20, Seoul National University)
 - Fall Conference (12.1, Seoul Education Culture Center)
- ❖ 2012
 - Spring Conference (6.22, Yonsei University)
 - Fall Conference (10.10, EL Tower)
- ❖ 2013
 - Spring Conference in conjunction with FKPPL Workshop (6.5, Yonsei University)
 - Fall Conference in conjunction with HPC User Forum (10.1, EL Tower)

■ Annual Meeting

❖ KSC2009

- 10.12~13, COEX Intercontinental Hotel
- Attendance 343: University 143, Industry 86, Government 114

❖ KSC2010

- 10.6~7, Ramada Hotel
- Attendance 246: University 81, industry 61, Government 104

❖ KSC2011

- 12.1~2, Seoul Education Culture Center
- Attendance: 354

❖ KSC2012

- 10.10~12, EL Tower
- Attendance: 301

❖ KSC2013

- 9.30~10.2, EL Tower

Super Korea!
