

GDR Terascale@Palaiseau

mercredi 4 juin 2014

Dark Universe - Amphithéâtre Becquerel (10:55 - 12:30)

-Présidents de session: Emmanuel Moulin; Marco CIRELLI

time	[id] title	presenter
10:55	[0] Mainly axion cold dark matter from natural SUSY	Prof. CHUN, Eung Jin
11:40	[16] Recent results of the XENON100 experiment and future goals of the XENON project	Dr MASBOU, Julien

Dark Universe: Dark Universe - Amphithéâtre Becquerel (14:00 - 16:00)

-Présidents de session: Emmanuel Moulin; Marco CIRELLI

time	[id] title	presenter
14:00	[1] BICEP2 and its implications for cosmology and particle physics	Dr SORBO, Lorenzo
14:30	[2] Fitting the Fermi-LAT GeV excess: on the importance of the propagation of electrons from dark matter	LACROIX, Thomas
15:00	[3] DM with supersymmetric triplets	Dr ARINA, Chiara
15:30	[4] Axion searches with the EDELWEISS experiment	DE BOISSIERE, Thibault
